## Henry Wallis

Materials Analysis of Byzantine Pottery Henry Maguire, 1997 This publication brings to a wider audience important new findings in the fields of medieval pottery and archaeometry. The new data that materials analysis provides about Byzantine ceramics and their production at times supports, modifies, and even contradicts conclusions derived from traditional archaeological methods.

**Ceramic Art from Byzantine Serres** Dēmētra Papanicola-Bakirtzē, Eunice Dauterman Maguire, Henry Maguire, 1992 Papanicola-Bakirtzē shows how the items found at Serres allow for detailed reconstruction of the processes used by Late Byzantine potters. Charalambos Bakirtzē provides an overview of the cultural setting in which Serres pottery was made.

**Byzantine to Modern Pottery in the Aegean** Joanita Vroom, 2005 Byzantine to Modern Pottery in the Aegean is the first general introduction to and easy-to-use field guide for Medieval and Post-Medieval pottery in the Aegean. This book opens up a neglected area of Mediterranean archaeology for fieldworkers and everybody interested in the Aegean after the Roman era. Whether ceramic specialists, students or readers with a general interest, all will find here a much needed overview and indispensable reference work of Post-Classical ceramics in the Aegean region. Byzantine to Modern Pottery in the Aegean offers a detailed description of the most important wares from the Early Byzantine period, the Middle Byzantine period, the Late Byzantine/Frankish period, the Turkish/Venetian period to the Early Modern period. In addition it includes a discussion of the problems in chronology, a time-line, an at-a-glance overview of the main shapes of table wares and kitchen wares in the Aegean, as well as a glossary of terms and the essential literature for each period.

**The Byzantine Pottery** Charles Hill Morgan, American School of Classical Studies at Athens, 1942

**Anemurium** Caroline Williams, Caroline H. Williams, 1989

**Materials analysis of byzantine pottery** Dumbarton Oaks, 1997

*The Byzantine Pottery* Charles Hill Morgan, 1942 Since its publication, this book has become one of the most important histories of Byzantine pottery. The first chapter deals with medieval methods of manufacture in the light of the discovery of

several potters' workshops at Corinth, the second with classification and terminology. A separate chapter is then devoted to each of the main categories of Byzantine pottery, classified according to type of decoration. Each group is analyzed from the point of view of artistic and chronological development. A brief summary concludes the discussion and the catalogue of 1,788 pieces constitutes the remainder of the book.

*Jerusalem Ceramic Chronology* Jodi Magness, 1993-01-01 This outstanding book offers a standardized typology and chronology for the pottery of the Jerusalem area from c. 200 to 800 CE with an emphasis on the fourth to seventh centuries. It begins with a review of the stratigraphy and ceramic assemblages of the relevant published sites: the City of David, the north wall of Jerusalem, the Damascus Gate, Bethany, the Armenian Garden and Ramat Rahel. Also presented is previously unpublished late Roman and Byzantine pottery from Avigad's excavations in the Jewish Quarter with a discussion of some of the ceramic types most characteristic of the Jerusalem area during the late Roman, Byzantine and early periods. The last part of the book is a corpus that sets forth a typology for the pottery of Jerusalem from c. 200 to 800CE with dates and lists of parallels provided for each type.

**Other Icons** Eunice Dauterman Maguire, Henry Maguire, 2007 A winged centaur with the spotted body of a leopard playing a lute; a naked man with an animal head; a goat-footed Pan; a four-bodied lion; sphinxes; and hippocamps. Few would associate these forms of art with the Byzantine era, a period dominated by religious art. However, an art of strikingly secular expression was not only common to Byzantine culture, but also key to defining it. In *Other Icons*, Eunice Dauterman Maguire and Henry Maguire offer the first comprehensive view of this unofficial Byzantine art, demonstrating the role it played and its dialogue with traditional Christian Byzantine art. This beautifully illustrated book creates an entirely new understanding of the whole of Byzantine art and culture. With its wide-ranging examples, the book vividly demonstrates how the surprise of this profane art is not only in its subjects of mythic creatures, exotic imagery, and eroticism, but also in the ubiquity and beauty of their placement--within churches and without, woven into silk, illuminated on manuscripts, engraved into pottery, painted in frescoes, and taking life in marble, bone, and ivory. By presenting and exploring this profane art for the first time in a scholarly book in English, *Other Icons* will change the way we look at the art of an entire era.

**Archaeology and History in Roman, Medieval and Post-medieval Greece** William Caraher, Linda Jones Hall, R. Scott

Moore,2008 Bringing together studies of archaeological method and analysis with detailed work of historical interpretation, the papers here demonstrate how analysis informed by multiple disciplines sheds new light on such important topics as the end of Antiquity, the so-called Byzantine Dark Ages, the contours of the emerging Byzantine civilization, and the complex character of identity in post-medieval Greece. More broadly, this volume shows how the study of the material culture of post-classical Greece has made significant contributions to both the larger archaeological and historical discourse.

**Pseira III** Cheryl R. Floyd, Philip P. Betancourt, Costis Davaras, 2015-09-30 The Pseira project began in 1985. Excavations were conducted from 1986 to 1991 as an American-Greek collaboration directed by Philip P. Betancourt and Costis Davaras. The Plateia Building (Building BS/BV) is located at the north of the Town Square or Plateia. It occupies the entire northern side of the square, with one room built on the eastern side as well. The structure is the largest building excavated at Pseira. The building was discovered by small tests made in 1986, and it was excavated in subsequent seasons. From the beginning, the building was recognized as an important structure in the town. Its excavation was conducted slowly and meticulously, with careful attention to the proper recovery and recording of its data. University Museum Monograph, 102

**The Archaeology of the Early Islamic Settlement in Palestine** Jodi Magness, 2003-06-23 There is a common perception that the Muslim conquest of Palestine in the seventh century caused a decline in the number and prosperity of settlements throughout the country. The role played by archaeology in perpetuating this view, claims Magness, is particularly insidious, because it is perceived, rightly or wrongly, as providing “scientific” (and therefore “objective”) data. Thus, archaeological evidence is frequently cited by scholars as proof or confirmation that Palestine declined after the Muslim conquest, and especially after the rise of the Abbasids in the mid-eighth century. Instead, Magness argues that the archaeological evidence, freed insofar as possible of political and/or religious biases, supports the idea that Palestine and Syria experienced a tremendous growth in population and prosperity between the mid-sixth and mid-seventh centuries. Such a radical shift in the interpretation of the evidence guarantees that this volume will be a benchmark with which future interpretations must reckon. The book includes a CD with map and key, which provides additional information regarding the sites studied and the area examined.

**An Archaeological History of Britain** Jonathan Mark Eaton, 2014-12-12 Jonathan Eaton has provided the essential volume for all students of Archaeology, Classical Civilisations and Ancient History by condensing the entire archaeological history of Britain into one accessible volume. ??The Archaeological History of Britain takes us from the earliest prehistoric archaeology right up to the contemporary archaeology of the present day through the use of key sites to illustrate each key time period as well as a narrative of change to accompany the changing archaeological record. The wide range of evidence utilised by archaeologists, such as artefacts, landscape studies, historical sources and genetics are emphasised throughout this chronological journey as are the latest theoretical advances and practical discoveries, making this the most advanced

narrative of British archaeology available.
