Supervising Child Protective Services Caseworkers Thomas D. Morton, Marsha K. Salus, 1994 Provides the foundation for supervisory practice in Child Protective Services (CPS). It describes the roles & responsibilities of the CPS supervisor, & provides practice-oriented advice on how to carry out supervisory responsibilities. Designed for CPS supervisors & administrators, but it also may be helpful to child welfare agency staff who provide training for supervisory personnel & to schools of social work as they prepare new social workers for the child welfare field. Also includes a glossary of terms & a bibliography.

Child Protective Services Diane DePanfilis, 2003 From the Preface: This manual, Child Protective Services: A Guide for Caseworkers, examines the roles and responsibilities of child protective services (CPS) workers, who are at the forefront of every community's child protection efforts. The manual describes the basic stages of the CPS process and the steps necessary to accomplish each stage: intake, initial assessment or investigation, family assessment, case planning, service provision, evaluation of family progress, and case closure. Best practices and critical issues in casework practice are underscored throughout. The primary audience for this manual includes CPS caseworkers, supervisors, and administrators. State and local CPS agency trainers may use the manual for preservice or inservice training of CPS caseworkers, while schools of social work may add it to class reading lists to orient students to the field of child protection. In addition, other professionals and concerned community members may consult the manual for a greater understanding of the child protection

process. This manual builds on the information presented in A Coordinated Response to Child Abuse and Neglect: The Foundation for Practice. Readers are encouraged to begin with that manual as it addresses important information on which CPS practice is based-including definitions of child maltreatment, risk factors, consequences, and the Federal and State basis for intervention. Some manuals in the series also may be of interest in understanding the roles of other professional groups in responding to child abuse and neglect, including: Substance abuse treatment providers; Domestic violence victim advocates; Educators; Law enforcement personnel. Other manuals address special issues, such as building partnerships and working with the courts on CPS cases.
