Everything but the Coffee Bryant Simon, 2009-10-20 Everything but the Coffee casts a fresh eye on the world's most

famous coffee company, looking beyond baristas, movie cameos, and Paul McCartney CDs to understand what Starbucks can tell us about America. Bryant Simon visited hundreds of Starbucks around the world to ask, Why did Starbucks take hold so quickly with consumers? What did it seem to provide over and above a decent cup of coffee? Why at the moment of Starbucks' profit-generating peak did the company lose its way, leaving observers baffled about how it might regain its customers and its cultural significance? Everything but the Coffee probes the company's psychological, emotional, political, and sociological power to discover how Starbucks' explosive success and rapid deflation exemplify American culture at this historical moment. Most importantly, it shows that Starbucks speaks to a deeply felt American need for predictability and class standing, community and authenticity, revealing that Starbucks' appeal lies not in the product it sells but in the easily consumed identity it offers.

What Is Contemporary Art? Terry E. Smith, 2009-10-15 Who gets to say what counts as contemporary art? Artists, critics, curators, gallerists, auctioneers, collectors, or the public? Revealing how all of these groups have shaped today's multifaceted definition, Terry Smith brilliantly shows that an historical approach offers the best answer to the question: What is Contemporary Art? Smith argues that the most recognizable kind is characterized by a return to mainstream modernism in the work of such artists as Richard Serra and Gerhard Richter, as well as the retro-sensationalism of figures like Damien Hirst and Takashi Murakami. At the same time, Smith reveals, postcolonial artists are engaged in a different kind of practice: one that builds on local concerns and tackles questions of identity, history, and globalization. A younger generation embodies yet a third approach to contemporaneity by investigating time, place, mediation, and ethics through small-scale, closely connective art making. Inviting readers into these diverse yet overlapping art worlds, Smith offers a behind-the-scenes introduction to the institutions, the personalities, the biennials, and of course the works that together are defining the contemporary. The resulting map of where art is now illuminates not only where it has been but also where it is going.
