## **Money and the Law of Attraction**

---

2022-05-24 Jerry Hicks Esther and Jerry Hicks present the teachings of the Non-Physical awareness Abraham in Money and the Law of Attraction. The ideas presented here are related to wealth and success. They will demonstrate that you should focus on what you want in life rather than what you don't want. If you focus your attention on the fact that you don't have enough money, you'll be in the ideal position to create more of what you don't have. As Abraham says: ""There is enough for everyone. The key is for each of you is to see it and want it - and then you will attract it. Know that you have the power to bring into your life whatever you desire. Affirm that money flows to you easily and that you have an unlimited supply of abundance and prosperity"".

In Illuminata, Williamson wrote that "we experience God to the extent to which we love, forgive, and focus on the good in others and ourselves." Now, in Enchanted Love, she writes that "enchanted partnership begins with the conscious understanding, on the part of two people, that the purpose of their relationship is not so much material as spiritual, and the internal skills demanded by it are prodigious." High romance, she says, "is not about past or future. It is not about practicality. It is not about society or worldly routines. It is an audacious ride to the center of what is, at the heart of every person. It is a bold and masterful inquiry into what two people really are and how we might become, while still on earth, the angels who reside within us."

## Getting into the Vortex

2020-07-21 Esther Hicks Living a better-feeling life really comes down to one thing only: coming into alignment with the Energy of our Source. Abraham reminds us that we are truly Source Energy focused into our physical bodies, and that a conscious Connection to that Broader Non-Physical part of us is necessary if we are to be the joyful Beings that we were born to be. Abraham calls that wonderful alignment Getting into the Vortex. Through a series of Leading Edge books (New York Times bestsellers), Abraham has emphasized the importance of our conscious alignment with the Source within us. They have let us know that our natural state of Being is inside our Vortex of Creation in complete alignment with Source Energy—and that every aspect of our physical experience reflects our alignment with, or resistance to, that Connection. Everything—from the physical well-being of our bodies, the clarity of our minds, and the abundance we allow to flow, to the satisfaction in every relationship we experience—is impacted by our all-important relationship with our Vortex. Abraham has helped us to understand that our dominant intent in every day is to get into the Vortex! And now, they have lovingly and specifically guided Jerry and Esther Hicks in

### Money, & The Law Of Attraction Cards : A

2009-04 Esther Hicks, Hicks Jerry “While money is not absolutely essential to your experience, to most people, money and freedom are synonymous. And since an intense awareness of your right to be free is at the very core of that which you are, it follows, therefore, that your relationship with money is one of the most important subjects of your life experience. And so, it is no wonder that you have such strong feelings about the subject of money. “It is our expectation that as you ponder these cards every day, a new point of attraction will begin to be activated within you, bringing not only more money into your experience, but evidence of your absolute freedom as well.” — Esther & Jerry

#### Semi-Open Adoption:

A modification of the above arrangement, semi-open adoption involves significantly less involvement in the child's life on the part of the birth parent(s). Adoptive parents and birth parents may still meet face to face prior to undertaking the adoption process, but typically there is no physical contact beyond that. The birth parents and the child may occasionally exchange photos or letters.

#### Closed Adoption:

In this type of adoption, minimal information is shared between birth and adoptive parents prior to placement. After the finalization of the adoption, adoptive and birth parents share no information. This type of adoption can take place in cases of child abuse or neglect, or when the birth parent(s) has(have) specified that they want no contact.

Fliers and business cards can be tacked on such bulletin boards. But before doing so, check out with the human resource department before placing the information as most of the HR departments make it compulsory to consult them.

Parents are required to be in regular touch with the teachers to know about the progress of the child and they have meetings from time to time. Do not miss this opportunity and spread the word. Hand them the business card and fliers personally at the meeting, instead of just giving the contact number.

Get involved with fundraiser at schools, as it's a nice approach to market business. Prior to handing out the order received, collect all necessary information like business card pack, fliers, with proper information. Information can be based on what is the company about, what are the products and services provided, or how to get in touch with the company. In each individual order, carefully place all of them and seal the package properly. Presentation, too, is of importance and should be paid attention.

Heat stroke is the severest condition of all heat related illnesses. In this condition the body gets overwhelmed with excessive heat and the efficiency of the system that regulates body heat goes down considerably which can result in a serious emergency requiring immediate medical care. The symptoms of heat stroke include dry and warm skin, very high fever generally above 104 degree Fahrenheit, increased heart rate, appetite loss, nausea, headache,

vomiting, fatigue, agitation, confusion, stupor, seizures, coma and possible death. A teenager experiencing symptoms of heat stroke should stay in a cool place and have adequate rest. Heat stroke is a serious condition and emergency attention should be sought by calling 911. In the meanwhile the affected teenager should be made free of excessive clothing and should be worn with cool clothes and also put cool water on the skin to lower the temperature. Placing ice bags in armpits also helps. Make the teenager drink cool drinks if the teenager is alert. Heat strokes are very much preventable if certain precautions are taken like drinking adequate water during hot days, avoiding alcoholic and caffeine drinks, wearing light clothes, exercising in cooler time of the day, wearing sunglasses and hat, using umbrella on a hot day, applying sun cream with a spf of at least 15 etc.

By inserting the needles in these areas, it stimulates and alters the neurotransmitters in the body thus making the patient feel better after treatment. This is also sometimes used for diagnosis and testing. There are also other forms of acupuncture that do not use needles. For instance there is sonopuncture that uses an ultrasound device that transmits sound waves to points in the body to treat a patient. Some practitioners use a tuning fork or other vibration devices. Acupressure is another. Here, the professional will use their hands to relieve the pain. This can be used on it sown or with other manual healing techniques.

Reading The Law Of Attraction Basics Teachings Abraham Esther Hicks-Companies can receive excellent discounts on air ambulance service coverage costs for groups of employees. The cost can be covered exclusively by the employer, or paid partially by the employer and shared with the employee.

Air ambulance service coverage plans are not only affordable, but a fabulous benefit for business travelers. Most coverage plans require that the plan only be utilized when the patient is 150 miles away from home. If the company has numerous employees that travel from state to state or around the globe on business, then this just may be a benefit that should be added to the company's roster.

A medical emergency can't be planned. No one heads off on a business trip and expects to become ill or injured, but in reality, this may be the case. Should such a circumstance arise while an employee is away on business, it is important that they be able to return home as quickly as possible.

**Reading The Law Of Attraction Basics Teachings Abraham Esther Hicks**\_\_ Adopting a small dog can be done through several different avenues. Shelters are a good source for finding small dogs to adopt, both pure breed and mixed breeds alike. The process is rather simple and generally requires an adoption fee and sometimes a pet owner check. This helps them to know what kind of pet owner you have been in the past. It is always a good idea to spend time with the dog before you adopt it. If you have children you should bring them along for the first orientation.

Some small dog breeds have breed specific medical conditions. For instance Dausounds of

regular or miniature variety are more prone to back and hip problems. Some simple bread research will reveal most of these medical issues.

Another avenue for small dog adoption would be rescues. Some of the more popular breeds such as, bichon frise, Papillion, miniature pincher, dashound, Yorkshire, pug, Boston terrier ect.. Have breed specific rescues. Other rescues are more general and have mixed breeds as well. If after you have finished your research, you found that particular breed fits you better, this avenue would probably work best for you.

### **Happiness The Law Of Attraction Basics Teachings Abraham Esther Hicks**

Studies have shown that children tend to blossom in same sex families. The problem is that only one parent is allowed to adopt. By not allowing both parents to adopt the child, it means that the law can not protect the rights of the co-parent. The co-parent should have rights such as knowing that if something were to happen to the other parent they would still be able to care for the child. The co-parent should also have rights if for some reason the couple should split up. The co-parent needs to be allowed to make decisions such as for medical treatment or for educational purposes.

Research has also shown that there is really no difference between straight and non straight couples when it comes to parenting. Both want what is best for their children. Just because a child is raised by a same sex couple does not mean that they are going to grow up to be non straight. But they do tend to handle people of different cultures better.

The outcome of a child being raised in a same sex home is unknown. Many same sex couples are finding it more and more difficult to adopt and instead turn to insemination or surrogacy

mothers. Some states allow one parent to adopt and then the second parent to do a domestic stepparent adoption. There are no international adopting countries that allow same sex couples either and if you gay or lesbian and single, if you keep your sexuality under wraps you may have better luck adopting. In Massachusetts, California, and Vermont, where same sex marriage is legal, they still recommend that the second parent file for stepparent adoption. This way the federal government will recognize the legality of the parent-child relationship.

### *Solutions The Law Of Attraction Basics Teachings Abraham Esther Hicks*

Control of pain is the most well researched of all of the indications for acupuncture. There is a definite beneficial effect for a majority of patients using this method. Migraines, premenstrual syndrome, arthritis, carpal tunnel syndrome, and neuralgias are but a few examples. The

theory behind its effectiveness is also medically accepted and well researched, called the gate-control theory of pain. It states that the needles can stimulate nerves so that they block the impulses from pain triggers.

#### **Expected Puncture Session Result**

It is important to emphasize that acupuncture is used only on top of existing medical therapy. At no time should a patient discontinue medication or ignore medical instructions in favor of needle puncture. After undergoing a needle puncture regimen, the primary care physician can make an evaluation with regards to decreasing dependence on other therapies.

#### **Hope The Law Of Attraction Basics Teachings Abraham Esther Hicks**

Teens get anemia as they grow rapidly the amount of iron intake may not be enough to keep up with the pace of the growth as it needs more nutrients in this process. In the case of girls they need more iron after puberty and are at risk due to heavy blood loss during menstrual periods. In some cases pregnancies also leads to anemia. Also, teens who diet excessively to lose weight may also be at risk of having iron deficiency. Meat eaters especially red meat eaters are at less risk compared to vegetarians as meat has rich iron in it.

#### **Asthma in Adolescents**

Most of the teenagers who have asthma are also allergic to many things. The asthma can get severe even if the people with asthma are exposed to allergens of low grade. Allergies play an important role in asthma cases which are undiagnosed. Other factors that also trigger childhood asthma include upper respiratory infections like colds, second hand smoke, and certain climate conditions like cold air and due to emotional physical expressions like

laughing, crying or yelling. However, it is not the end of the road for asthmatics as they can live active and healthy if they manage asthma properly by avoiding asthma triggers, regular intake of prescribed medications, being alert of the warnings and be aware of the ways to deal with an asthma attack.

*Legend The Law Of Attraction Basics Teachings Abraham Esther Hicks* \_\_\_ There is a great consensus among the parents whether their children would outgrow asthma as they grow up. But the truth is it depends from child to child. While some children experience improvement in their teens others see asthma becoming even more severe. But almost half of the children who have asthma outgrow asthma as they grow although some symptoms may come back later. Many parents have questions like whether their children can take part in sport activities. The answer is both yes and no. Some kids may get an asthma attack when they participate in exercises like running. But with proper management a teenager suffering from asthma can actively participate in sports. Special aerobic exercises can improve airway function. This strengthens the breathing muscles. Some of the ways that one can participate in sports is to follow the regimen of stretching the muscles prior to and after exercising, nose-breathe instead of breathing through the mouth and make sure that humidified air passes through the airways. Also parents should make sure that the adolescent has taken all prescribed medication supposed to be taken before they begin exercising. Carrying a reliever is a must for asthmatic teens which would come handy if asthma attack occurs. Asthmatic teenagers should make sure that they wear something over their mouth and nose to stop cold air from entering. It is not easy for adolescent teens to attend school when they have asthma but it is not difficult

also at the same time if proper coordination is made among the teenager, doctor, family and school employees. It is a good idea to consult teachers, nurses and other pertaining employees of the school and let them know that the teenager has asthma and may have special requirements. Also, let the school management know on medications the teenager regularly takes and how to help the teenager when an attack occurs. The school staff should be asked to treat the teen normally once the attack subsides. The physical education coach should also be informed about the condition so that he/she can let the kid stretch the muscles before any exercises or to deal with asthma attack induced due to exercises. Also, before admitting the teenager to a new school care must be taken to check the quality of air, irritants and allergens if any present in the school. The school staff should take considerations to avoid symptoms which could hamper the energy level kids. Also asthmatic teens should be assured from time to time that they are no different from others and asthma in any way does not slow them down, They need this emotional confidence otherwise they may have personality problems.

*Legend The Law Of Attraction Basics Teachings Abraham Esther Hicks;*It was stated above that most of the extant statistics pertaining to adoption are inaccurate or outdated. As with all things, however, financial records remain meticulous, allowing for an accurate estimate of the costs of adoption. The biggest factor influencing adoption cost is the kind of agency of involved. A domestic adoption via a public agency may cost as much as \$2500 down to nothing at all. On the other hand, that same adoption when handled by a private agency can cost as little as \$4000, or upwards of \$30,000. The difference is due largely to the fact that public agencies are subsidized by the state, and private agencies often offer more support services

which can be costly.

As stated above, these statistics paint only a small part of the picture of adoption. They are merely descriptive, and do not necessarily predict future adoption figures or trends. They do however, provide a certain degree of insight and can be useful for those considering either adopting or placing a child for adoption.

### **Children for Adoption**

A frequent question among those people looking to become adoptive parents is that of what the children are like. This is understandable, of course. After all, before welcoming a child into ones home, it is useful to know what options are available and what one can expect of the child. Since all children are different, there is no single or precise way to answer this question. By examining the various kinds of children who are generally adopted, it is possible to paint something of a general picture.

Arts programs involve communication, interpretation and understanding of complex symbols, much like mathematics and languages. Thus it fosters higher-order analytical skills and skills of evaluation and synthesis. Many of the programs make the child regularly use multiple skills thus making him dynamic and versatile.

Development of imagination, judgment and philosophy are fringe benefits of an arts-based activity. As opposed to the short 45-minute duration of the art classes at school, the extra time allowed in after school activities allows the child to get more involved. This results in more satisfactory opportunities for development of latent capabilities in the child. In turn, the child learns to set high standards of achievement. He understands what sustained focus is and learns that regular practice is the way to excellence.

In the shy or the withdrawn child, theatre, speech or drama lessons may be an outlet for pent up emotions. As drama entails getting into the skin of another person, the child learns to verbalize emotions and express thoughts. These reasons account for the popularity of arts-based activities.
