*BIID Interior Design Project Book* Susie Rumbold, 2022-07-01 The touchstone guide to running projects from the British Institute of Interior Design (BIID). By setting out actions step-by-step, this essential handbook identifies the key obligations of the interior designer at each project stage. Straightforward explanation is supplemented by invaluable checklists and templates. Featuring crucial advice on administering construction contracts, it references the new RIBA/BIID Domestic Professional Services Contract 2020 for interior design services. Reflecting the RIBA Plan of Work 2020 and contemporary working practice, it provides a systematic operational framework that can be applied to all types of projects. Comprehensive in scope with a logical structure, it embraces the theme of collaboration within the project team. It also addresses post-occupancy evaluation, modern methods of construction and sustainability. Suitable for projects within any industry sector and practice type, from large international firms to sole practitioners, it is accessible to designers with different levels of experience.

**Motorcycling and Leisure** Paul Broughton, Linda Walker, 2016-12-05 Despite the fact that there are around 1.2 million powered two wheelers (PTWs) within the United Kingdom, riders are often misconceived as living at the edge of society; however, this is often far from the truth. Riding a PTW is a high-risk activity and those who ride are often perceived as being 'risk junkies', but through an in-depth exploration of this leisure activity, *Motorcycling and Leisure* explains that riders ride because they enjoy it and do not necessarily enjoy the risk involved. The book presents a range of contemporary research on riders and how they find enjoyment. The book further explores the rider goal of enjoyment and utilises Fuller's task homeostasis theory along with Csikszentmihalyi's theory of flow to develop an understanding of the interaction between risk and goals. In conclusion it develops principles of interventions with the aim of guiding intervention design and reducing the number of motorcycle crashes.

**Riding in the Zone** Ken Condon, 2019-10-15 Riding motorcycles is fun, but author Ken Condon maintains that there is a state of consciousness to be achieved beyond the simple pleasure of riding down the road. Riding in the Zone helps riders find that state of being. It's the experience of being physically and mentally present in the moment, where every sense is sharply attuned to the ride. Your mind becomes silent to the chatter of daily life, and everyday problems seem to dissolve. You feel a deeper appreciation for life. Your body responds to this state of being with precise, fluid movements, you feel in balance, your muscles are relaxed, and it seems as though every input you make is an expression of mastery. This is the Zone. Condon identifies all of the factors that affect entering the Zone and addresses each one individually, from the development of awareness and mental skills to mastering physical control of the motorcycle. At the end of each chapter are drills designed to transform the book's ideas into solid, practical riding skills. Riding in the Zone takes riders to the next level in their skill set.
