Inside-out approaches are designed to encourage schools to become more innovative and entrepreneurial, finding better ways to help students learn and pursue their own intellectual passions and talents—while also maintaining a healthy skepticism and reliance on data to make sure new approaches and ideas are working. This process involves seven steps: starting with moral purpose, unleashing curiosity, building on bright spots, peer coaching toward precision, leading from the inside out, and moving the goal posts. This book's tips, real-life examples, and next steps will help leaders get from where they are now to where they want to be.
