The God Matrix Brian David Alexander,2021-01-10 Someone is kidnapping people and wiping their memories of the experience. The kidnapped are claiming they've been abducted by aliens. But the real question is, have they? A secret military group denies knowing anything about it. Are there really aliens or is it something more sinister and closer to home. The God Matrix is a spiritual thriller that blends mystery, suspense, military intrigue and maybe even Alien abductions, with spiritual principles and quantum physics. It will captivate you and keep you on the edge of your seat as you are swept up in

an adventure that leaves you wondering at the truth of you own existence, and even more so, wondering whether the story is indeed fact or fiction.

Landmark events are highlighted and fascinating insights provided into the exceptional people who made possible the progress in the field, including the scientists and technologists who worked independently and under strict secrecy in various countries across the world in the 1930s and the big businessmen who played an important role after World War II.
