Hidden History

2020-05-01 Jim Willis Investigates and questions the scientific consensus on the origins of civilization Do we, the human species, really know who we are or where we came from or how we originated or our place in the cosmos? Or is much of what we have been taught wrong or misguided or possibly even blatant lies intended to keep people in power and everyone else in line? Exploring alternative theories on the establishment of society and civilization, Hidden History: Ancient Aliens and the Suppressed Origins of Civilization looks at a variety of dissenting, suppressed, and forbidden accounts of history and the origins of humanity. It takes a broad and inclusive survey of historical documents, various theories, and a wide array of perspectives to explore what conventional wisdom might have gotten right and wrong. The book serves as a useful introduction into the suppressed accounts of the origins of modern civilization. It combines cutting-edge science with metaphysical, spiritual, and even paranormal views, daring to ask whether there might be a better explanation for humanity's existence and the origins of civilization than the current scientific consensus. Hidden History looks at the multiverse and parallel dimensions, the ancient alien theory,

metaphysics, and hypotheses beyond physical perception, the eleven dimensions of string theory, radio telescopes that penetrate to the event horizon of our universe, mathematical equations that take us where no one has gone before, and the world-wide sharing of experiences old and new that speak of long forgotten ancient mythologies that reveal historical truths. With more than 120 photos and graphics, this tome is richly illustrated. Its helpful bibliography provides sources for further exploration, and an extensive index adds to its usefulness. This fascinating book is a thorough investigation and examination of the mysteries surrounding early civilizations, their myths, legends, histories, monuments—and lasting legacies.

What The Prophet Ether Couldn't Tell Us: Book 2 of 3

2021-04-13 Jim Hendleman BACK COVER The sequel to the Jaredite's Civilization (What the Prophet Ether couldn't Tell Us) is finally out. Book III to shortly follow. Book II tells of the life and times of the Jaredites, the greatest civilization to have ever lived on Planet Earth. It details their earliest beginnings, and enumerates some of their many achievements and accomplishments. It is first mentioned within the Book of Mormon, in Ether 1:42-44. Ether was later directed by God to remove everything about them save for their earliest beginnings at the Tower of Babel, in Iraq, and a few brief tales of their spiritual trials and wars, up to their final Civil War. Mainstream Archaeology refuses to address this civilization because it would reveal Archaeology's canards about evolution and their false narrative about the Origin of Man. The Jaredites settled and colonized South and North America, Lemuria, Antarctica, The British Isles and most of western Europe, plus the lands of China and India. For nearly 2,530-years, they maintained a world-wide civilization. My research has uncovered many details of Jaredite life and their physical characteristics that the prophet Ether was not allowed to tell us. They built all of Egypt. Their Hindu colony fought at least two internal nuclear wars. They colonized throughout our entire Solar System; most moons and all the planets have their cities, mainly covered by 7-mile high glass domes, except Jupiter and Saturn. These two planets each have possible Star War-size "moons" that could be artificial space stations. Mars used to be a moon to its now exploded primary, which is now the Asteroid Belt. Their Martian cities are so immense that New York City and Shanghai combined wouldn't be considered a nickel in a handful of change in comparison to them.

Jaredite leftovers are all over Earth if one knows when to look for them. Book III details a few of their many wars, as well as their final Civil War, the first year or two which were nuclear. Through their longevity, they were able to develop their physics to the point to where they could control the weather, as well as to weaponize its component parts. And their final, long prophesied death.

Secrets of Ancient America

2015-01-02 Carl Lehrburger The real history of the New World and the visitors, from both East and West, who traveled to the Americas long before 1492 • Provides more than 300 photographs and drawings, including Celtic runes in New England, Gaelic inscriptions in Colorado, and Asian symbols in the West • Reinterprets many archaeological finds, such as the Ohio Serpent Mound • Reveals Celtic, Hebrew, Roman, early Christian, Templar, Egyptian, Chinese, and Japanese influences in North American artifacts and ruins As the myth of Columbus "discovering" America falls from the pedestal of established history, we are given the opportunity to discover the real story of the New World and the visitors, from both East and West, who traveled there long before 1492. Sharing his more than 25 years of research and travel to sites throughout North America, Carl Lehrburger employs epigraphy, archaeology, and archaeoastronomy to reveal extensive evidence for pre-Columbian explorers in ancient America. He provides more than 300 photographs and drawings of sites, relics, and rock art, including Celtic and Norse runes in New England, Phoenician and Hebrew inscriptions in the Midwest, and ancient Shiva linga and Egyptian

hieroglyphs in the West. He uncovers the real story of Columbus and his motives for coming to the Americas. He reinterprets many well-known archaeological and astronomical finds, such as the Ohio Serpent Mound, America's Stonehenge in New Hampshire, and the Crespi Collection in Ecuador. He reveals Celtic, Hebrew, Roman, early Christian, Templar, Egyptian, Chinese, and Japanese influences in famous stones and ruins, reconstructing the record of what really happened on the American continents prior to Columbus. He also looks at Hindu influences in Mesoamerica and sacred sexuality encoded in archaeological sites. Expanding upon the work of well-known diffusionists such as Barry Fell and Gunnar Thompson, the author documents the travels and settlements of trans-Atlantic and trans-Pacific explorers, miners, and settlers who made it to the Americas and left their marks for us to discover. Interpreting their sacred symbols, he shows how their teachings, prayers, and cosmologies reveal the cosmic order and sacred landscape of the Americas.

Walls

2019-08-27 David Frye “A lively popular history of an oft-overlooked element in the development of human society” (Library Journal)—walls—and a haunting and eye-opening saga that reveals a startling link between what we build and how we live. With esteemed historian David Frye as our raconteur-guide in *Walls*, which Publishers Weekly praises as “informative, relevant, and thought-provoking,” we journey back to a time before barriers of brick and stone even existed—to an era in which nomadic tribes vied for scarce resources, and each man was bred to a life of struggle. Ultimately, those same men would create edifices of mud, brick, and stone, and with them effectively divide humanity: on one side were those the walls protected; on the other, those the walls kept out. The stars of this narrative are the walls themselves—rising up in places as ancient and exotic as Mesopotamia, Babylon, Greece, China, Rome, Mongolia, Afghanistan, the lower Mississippi, and even Central America. As we journey across time and place, we discover a hidden, thousand-mile-long wall in Asia's steppes; learn of bizarre Spartan rituals; watch Mongol chieftains lead their miles-long hordes; witness the epic siege of Constantinople; chill at the fate of French explorers; marvel at the folly of the Maginot Line; tense at the gathering crisis in Cold War Berlin; gape at Hollywood's gated royalty; and contemplate the wall mania of our own era. Hailed by Kirkus Reviews as “provocative, well-written, and—with walls rising everywhere on the planet—timely,” *Walls* gradually reveals the startling ways that barriers have affected our psyches. The questions this book summons are both intriguing and profound: Did walls make civilization possible? And can we live without them? Find out in this masterpiece of historical recovery and preeminent storytelling.

The Atlantis Blueprint

2008-12-10 Colin Wilson A spellbinding blend of history and science, scholarship and speculation, this landmark work presents startling new evidence that traces archaeology's most enduring mysteries back to the lost civilization of Atlantis.... The Great Pyramid. Stonehenge. Machu Picchu. For centuries, these and other sacred sites have inspired wonder among those who ponder their origins. Conventional science tells us they were constructed by local peoples working with the primitive tools of a fledgling civilization. But these megaliths nonetheless continue to attract pilgrims, scholars, and adventurers drawn by the possibility that their true spiritual and technological secrets

remain hidden. Who could have built these elaborate monuments? How did they do it? And what were their incomprehensible efforts and sacrifices designed to accomplish? Now comes a revolutionary theory that connects these mysteries to reveal a hidden global pattern -- the ancient work of an advanced civilization whose warnings of planetary cataclysm now reverberate across one hundred millennia. International bestselling author Colin Wilson and Canadian researcher Rand Flem-Ath join forces to share startling evidence of a fiercely intelligent society dating back as much as 100,000 years -- one that sailed the oceans of the world, building monuments to preserve and communicate its remarkable wisdom. The Atlantis Blueprint is their term for a sophisticated network of connections between these sacred sites that they trace to Atlantis: a sophisticated maritime society that charted the globe from its home base in Antarctica ... until it was obliterated by the devastating global changes it anticipated but could not escape. Here is adventure to realms beyond our imaginings ... to shifting poles, changing latitudes ... into the world of ancient mariners who recharted the globe ... to astonishing discoveries about our ancestors. Here are the great mysteries ... the incredibly complex geography of the Temple of Luxor ... the startling sophistication of Egyptian science and math ... and tantalizing similarities among the Hebrew, Greek, and Mayan alphabets to the Chinese lunar zodiac. The Atlantis Blueprint opens up a Pandora's box of ancient mysteries, lost worlds, and millennial riddles. It is a story as controversial, fascinating, dangerous -- and inspiring -- as any ever told.

Secrets of the Lost Races

2001 Rene Noorbergen An increasing number of historical and archaeological finds made around the world have been classified as out-of-place artifacts (ooparts). They have been called this because they appear unexpectedly among the ruins of the past with no evidence of a preceding period of development; their technological sophistication seems far beyond the capabilities of ancient peoples. Drawing on the literature and art of the Chaldeans, Sumerians, Babylonians and others, Rene Noorbergen's contention is that a superior race of man was responsible for these scientific marvels that bear testimony to a civilization with technology comparable to our own.

The Lost Civilization Enigma

2012-10-22 Philip Coppens An examination of archaeological controversies, with arguments showing evidence of prehistoric civilizations not recorded as part of human history. Are history books giving us the whole story? Or is civilization far more complex and older than we have been taught? Our school textbooks barely mention the 6,000-year-old Sumerian civilization, yet the latest archaeological findings at sites such as Jericho and, most recently, Gobekli Tepe in Turkey have been dated to 10,000 BC. Civilization goes back at least another 10,000 years, if we are willing to believe what our ancestors themselves claimed. The Lost Civilization Enigma reveals the truth about: Lost magnitudes to known cultures, such as the Bosnian Pyramids and the civilization of "Old Europe." The fabled lost "golden" cities of South America and the Amazon, which are slowly being rediscovered. Fascinating examples of lost technology, such as the Antikythera Device. Atlantis and the fact that it was a real civilization. Analyzing the historical and archaeological record, best-selling author Philip Coppens demonstrates that there is substantial evidence that civilization is far older, far more advanced, and far more special than is currently accepted. Clearly, our history books have left out a great deal!

Douglas Kenyon presents extensive physical and spiritual evidence of a lost great culture, the collective amnesia that wiped it from planetary memory, and the countless ways ancient catastrophes still haunt modern civilization. He explores evidence of advanced ancient technology, anomalous ancient maps, extraterrestrial influence, time travel, crystal science, and the true age of the Sphinx. He examines evidence of Atlantis in the Bible and ancient Armageddon, the Stone Age high-tech found at Gobekli Tepe, the truth of Rapa Nui (Easter Island), the Zep Tepi monuments of Egypt, the mysteries of the Gulf of Cambay, and what lies beneath the ice of Antarctica. He looks at extinction events, Earth's connection with Mars, and how our DNA reveals that humanity has had enough time to evolve civilization and lose it more than once. Exploring

the advanced esoteric and spiritual knowledge of the ancients, Kenyon shows that the search for Atlantis and other lost worlds reflects the search for the lost soul of humanity. Drawing upon Velikovsky's notion of a species-wide amnesia caused by the trauma of losing an entire civilization, he reveals how the virtual ruins of a lost history are buried deep in our collective unconscious, constantly tugging at our awareness. As Kenyon reveals, by overcoming "the Great Forgetting," humanity can find its way out of the haunted labyrinth in which we find ourselves lost today and rediscover the heights of spiritual and technological advancement of our ancient ancestors.

History's Mysteries

2010-04-20 Brian Haughton *History's Mysteries* is an absorbing and meticulously researched exploration of the archaeology, history, and mysteries of 35 ancient places worldwide.

Haughton's book takes the reader on an unforgettable journey, from the 8,000-year-old stone circle of Nabta Playa to India's magical Taj Mahal; from Rhode Island's controversial Newport Tower to the enigmatic Royston Cave in the UK; from the strange medieval castle-village of Rennes-le-Château to the massive ancient walled city of Great Zimbabwe. Using the latest archaeological evidence, *History's Mysteries* explores: The incredible archaeological discoveries at the 11,000 year-old sanctuary of Göbekli Tepe in Turkey. The heated debate over the 47-million-year-old 'Ida Fossil'—could it be the missing link in our evolutionary history? The reality behind controversial ancient artifacts such as the Iron Pillar of Delhi, the Oak Island Treasure, and Egypt's "Dendera Lamps." What really happened to the Neanderthals? With 36 photographs and illustrations, this is the perfect reference work for those fascinated by the great mysteries of ancient history.

Lost Secrets of the Gods

2014-07-21 Michael Pye Are there 10,000-year-old secret societies that still exist today? Was there a race of giants that once inhabited the Americas? Did ancient Egypt and ancient China have heretofore undiscovered ties? *Lost Secrets of the Gods* delves into these ancient mysteries and many more in articles by some of the world's most intrepid and knowledgeable researchers. The old paradigms of history are being radically transformed as we discover more evidence of little-known cultures and what they achieved. Many ancient cultures spoke

and wrote of visitors that gave them knowledge and helped shape their societies. Who were they, and where did they come from? We now know that many ancient cultures had advanced knowledge of science, agriculture, and astronomy, only some of which has been rediscovered in the last 100 years. Were The Iliad and The Odyssey really about an epic struggle in pre-Celtic Europe? What happened to the Persian army that completely disappeared from Egypt 2,500 years ago? Did the ancients know how to create psychic guard dogs to protect sacred sites? There is much more to history than what has officially been recorded. *Lost Secrets of the Gods* reveals startling truths and asks fascinating questions traditional historians have long ignored.

Mysteries of the Ancient Past

2012-10-03 Glenn Kreisberg Cutting-edge thinkers on the origins of civilization, the Giza pyramids, pre-Columbian and early America, and the power of human consciousness • With contributions by David Frawley, Geoff Stray, Joscelyn Godwin, Daniel Pinchbeck, Antoine Gikal, and others • Topics range from the origins of the Inca to the architecture of the Giza plateau to unified theories of physics and consciousness • Companion volume to *Lost Knowledge of the Ancients* As we pull back the curtain from the European version of history, we discover the vast depth of knowledge of our ancient ancestors--knowledge that not only dispels our image of them as primitive peoples but also corresponds with the forefront of modern science, philosophy, and spirituality. With contributions by David Frawley, Geoff Stray, Joscelyn Godwin, Daniel Pinchbeck, Antoine Gikal, and other provocative, cutting-edge thinkers, this collection of essays commissioned by Graham Hancock, bestselling author of *Fingerprints of the Gods*, represents the latest, often controversial findings in alternative science, history, archaeology, and consciousness research. Covering topics ranging from the

origins of the Inca and the secrets hidden in Vedic literature, to the architecture of the Giza pyramids and the Sphinx, to unified theories of physics and consciousness, this book shows how, by recovering our lost history, we too can experience the higher consciousness and advanced wisdom of the ancients.

Evidence of Lost Ancient Civilizations

2009-05 Joe Szostak Introducing the book that governments and mainstream academia donat want you to see. Evidence of Lost Ancient Civilizations: Case Closed is the ultimate reference guide for anyone interested in learning the true, unfiltered history of ancient civilization and of mankindas earliest origins. This definitive resource guide uniquely presents and explores evidence not included in conventional history or science textbooks. Revealing evidence consisting of compelling eyewitness accounts, media reports, scientific journal articles, as well as indisputable physical evidence, has never been made available to the general public. You will see by the overwhelming shocking evidence and data presented throughout this book it is apparent that modern science and history have been offering a less-than-accurate account of evolution and the origins of mankind on Earth. The basic questions this book attempts to answer are: Where did we come from? What is the true history of mankind? Where will the truth lead us? What humanity may first discover from this explosive ancient evidence may shake the foundations of established world order and religion, and will certainly be difficult to comprehend or rationalize. However, what we may learn from our forgotten past could guide us in determining the direction of our future.

America Before

2019-04-23 Graham Hancock The Instant New York Times Bestseller! Was an advanced civilization lost to history in the global cataclysm that ended the last Ice Age? Graham Hancock, the internationally bestselling author, has made it his life's work to find out--and in *America Before*, he draws on the latest archaeological and DNA evidence to bring his quest to a stunning conclusion. We've been taught that North and South America were empty of humans until around 13,000 years ago - amongst the last great landmasses on earth to have been settled by our ancestors. But new discoveries have radically reshaped this long-established picture and we know now that the Americas were first

peopled more than 130,000 years ago - many tens of thousands of years before human settlements became established elsewhere. Hancock's research takes us on a series of journeys and encounters with the scientists responsible for the recent extraordinary breakthroughs. In the process, from the Mississippi Valley to the Amazon rainforest, he reveals that ancient "New World" cultures share a legacy of advanced scientific knowledge and sophisticated spiritual beliefs with supposedly unconnected "Old World" cultures. Have archaeologists focused for too long only on the "Old World" in their search for the origins of civilization while failing to consider the revolutionary possibility that those origins might in fact be found in the "New World"? America Before: The Key to Earth's Lost Civilization is the culmination of everything that millions of readers have loved in Hancock's body of work over the past decades, namely a mind-dilating exploration of the mysteries of the past, amazing archaeological discoveries and profound implications for how we lead our lives today.

The repetition Pap test will be suggested by the gynecologist. When a girl becomes sexually active, she will have to test for cervical cancer after three years of becoming active because it usually takes many years for the significant development of cancer or abnormality. Usually there are some cervical cell changes and transient human papilloma virus infections or HPV infections which are very common. Therefore, a Pap test for cervical cancer is recommended every three years. But women who are under thirty years are at a higher risk of getting HPV infections of higher risk. It would be more feasible if every individual takes advice from her doctor about when she can begin

In a Pap test, if abnormal cells are determined, usually more tests are recommended to detect abnormalities which will require treatment. Abnormal Pap test will be handled differently for adolescents when compared to adults.

Usually the low grade cervical lesions will not require any treatment and will go away on their own. That is the reason why the Pap test is repeated after a gap of six to twelve months, after the original Pap test which identifies abnormalities. But this repetition will vary from individual to individual depending on her health status and kind of abnormalities found.

A replacement of the Pap test is thinprep test. It involves new technique for testing cells from the cervix for abnormalities. But the cost of getting a thinprep test done is double the cost of getting Pap test done. The advantage of getting a thinprep test is that it requires to be re-done less number of times and detects lesions in initial stages itself. The cervical cells, instead of getting smeared on a slide, are introduced into a liquid vial. After the filtration of the liquid, the cells from the cervix are examined by being placed on the slide.

~~Accounting Terms – Profit & Loss and Other Terms~~

Different fields of study make use of certain terms that are not easily understood by others. If you're an accounting student or a professional accountant, you know the different terms used in accounting. One very popular term is profit & loss.

So, do you know what the term means? To start with, you have to determine what profit means. Profit can be referred to as net earnings or net income. Businesses can either sell services or even products. Profit will come from the sales of these services and products. If the costs of running a business are controlled, it can add up to the profits. Profits are also called ROI or return on investment. However, this term is often limited to securities like bonds or stocks. But still, some companies use ROI to mean short or long term business outcomes. Taxable income is another term for profit.

But there are certain drawbacks in using women models in some advertisements and if a consumer is smart enough, it won't take time for him to realize that. It is totally irrelevant to feature a female model or an actress in advertisement promoting men products. Some good examples of this point are showing a woman in axe deodorant commercial and comparison of a partially nude woman's body to the body of a car. Second drawback is due to more concentration on the model, the attention deserved by the product is not sufficient. The main focus of the advertisement is lost. Surprisingly only few male models advertises for male oriented products. Even a picture of a woman on an Internet commercial seems not logical to some extent, as there are thirty percent of female internet users and

Advertisements are convincing and motivating tool, which can leave a deep impact on the minds of the viewers and plays a major role in molding the culture and attitude of the people. Expansive and extensive portraying of women in this manner merely reduces their image to an object of passion. Emphasis is laid only on the physical beauty of the woman like features, body curves. After the commercial has been shot, using graphical technology, any kind of imperfection of the body is altered which in a way sends out the signal that only perfect people are meant to use the product.

Keeping the blood cholesterol levels at normal is a good way of avoiding high blood pressure and coronary artery diseases.

The blood cholesterol level can vary from individual to individual. Healthy levels of LDL is less than one hundred and thirty milligrams, HDL is greater than thirty five milligrams. If the HDL is less than thirty five milligrams then the adolescent is at a higher risk of developing heart diseases. And LDL more than one hundred and thirty milligrams is dangerous. But a high level of LDL cholesterol is a problem in many citizens of America. And there is an expected increase in number, the figure is unknown, of adolescents who have a family history of high cholesterol levels.

An adolescent or a child who has a parent having high levels of blood cholesterol and family history of heart diseases at an early age, should take cholesterol test from the age of two. Adolescents who are obese also should have lipid test along with cholesterol test. The lipid test shows levels of kinds of fats in blood such as triglycerides, LDL and HDL.
