## Morfología del Infinito

---

2023-10-27 Fernández Castelao, Pedro De acuerdo con uno de los presupuestos más arraigados en el pensamiento occidental se suele dar por hecho que la condición de criatura es constitutivamente finita y que sólo en virtud de esa finitud metafísica se puede concebir su diferencia ontológica respecto de la infinitud absoluta de Dios. Dios es infinito. La creación no. Y si algo de infinitud hubiese en lo no divino sería únicamente bajo la forma de apertura, capacidad o inclinación hacia la divinidad infinita. Sólo en Dios hallaríamos un infinito actual. En la criatura, si la infinitud comparece, lo haría únicamente como infinitud potencial. Por eso, los grandes teólogos del s. XX son prácticamente unánimes en conceder a la finitud la base evidente sobre la que, a continuación, desarrollan cómo la criatura es capax Dei, pero siempre —según ellos— manteniendo su finitud estructural. Este libro cuestiona y contradice este planteamiento. Lo cuestiona señalando sus aporías escatológicas en relación con el problema del mal y la salvación. Y lo contradice ofreciendo una estructura filosófica alternativa —en diálogo con M. Cababa, Torres Queiruga, B. Pascal y G. Cantor— que tiene en su centro lo que Jean Terrason nombró como infinito creado actual. El lector encontrará en estas páginas un nuevo fundamento filosófico para una antropología teológica todavía por hacer.

Toma de decisiones y principios éticos en la unidad de terapia intensiva

2023-10-02 Raúl Carrillo Esper El médico intensivista siempre ha tenido la preocupación de tratar de actuar de la mejor manera para con su paciente, ya sea en el aspecto técnico médico o en lo referente a los aspectos éticos y morales de la atención médica del enfermo grave; sin embargo, ante la avalancha de avances tecnológicos y de información médica, que se han acompañado de mayor sofisticación en la atención médica, también ha venido de la mano la despersonalización de la atención, en ocasiones brindando una atención médica un tanto deshumanizada y también carente de los valores éticos que debe tener el médico, por lo que en este milenio se ha recobrado con gran fuerza el intento de atender estos aspectos de la medicina que se han perdido por la sofisticación de la medicina aunada a una pobre formación ética durante la carrera de medicina y durante la especialización. En el mismo tenor, y con el propósito de tratar de dar un punto de vista de los intensivistas en lo que se refiere a los aspectos éticos relacionados con la atención del enfermo grave, hemos decidido abordar la presente obra comenzando por tratar los aspectos filosóficos relacionados con la muerte, los aspectos legales y religiosos de la atención de los enfermos al final de la vida, y también tratando temas de relevante importancia, como los derechos de los enfermos, el consentimiento informado, los aspectos relacionados con la voluntad anticipada, muy en boga en nuestro país, y la siempre controvertida eutanasia, que ha sido discutida durante siglos y abordada recientemente por nuestros legisladores. También abordamos temas de mucho interés en la

atención del enfermo grave, como los aspectos éticos relacionados con la investigación en este grupo de enfermos, la vulnerabilidad del paciente, la limitación del esfuerzo terapéutico, los aspectos éticos relacionados con la donación de órganos y muchos otros temas de ética de utilidad para el intensivista en la atención del enfermo grave. Los temas encontrados en la presente obra son abordados por expertos en el área y con amplia experiencia en la atención de enfermos en estado crítico, por lo que consideramos que la amalgama de experiencia, conocimiento y sencillez con la que se tratan permitirá una lectura fácil y agradable.

### **O pecado original e como se dá sua transferência de geração a geração**

2020-10-08 Margarida Azevedo Por estar o pecado vinculado ao comportamento humano, esta obra procura identificar e analisar a imagem e semelhança de Deus e a natureza divina e humana no homem, a personalidade, o genoma humano e a hereditariedade. Na imagem e semelhança focamos na dualidade, espírito e alma, sentimentos e valores. Em termos de natureza humana o foco se encontra na imagem e semelhança de Deus e imagem e semelhança de Adão. O ser humano antes e depois do pecado. No que se refere a personalidade busca-se compreender os elementos que formam a personalidade, ou seja, o temperamento e caráter, a formação do temperamento pela genética e do caráter pelo ambiente. Ao falar sobre o genoma humano a obra traz a lume a formação do código genético, o papel dos genes na hereditariedade e a transferência da natureza pecaminosa do homem para o seu descendente, procurando compreender a sucessão do pecado original e responder a seguinte questão:

recebemos de Adão o pecado original ou uma natureza tendente ao pecado? Como se dá essa transferência de Adão à raça humana? De forma universal, intemporal, imutável, o fenômeno tão conhecido como pecado original tem assolado a humanidade corrompendo-a, levando-a ao pó. O ser humano já é por natureza, destinado a ser um guerreiro, pois seu inimigo está alocado dentro de si e nesta guerra para liberta-se ele precisa lutar e ser mais do que vencedor. Os seres humanos em todos os tempos e em todos os lugares sempre trouxeram consigo as marcas do pecado original cometido por Adão e Eva, porém, pouco se compreende como as consequências desse pecado são transferidas de pais para filhos de geração a geração. A ideia de pesquisar sobre a natureza pecaminosa do homem e como se dá sua transferência aos seus descendentes é pouco explorada no que tange ao sentido físico, biológico, psicológico e espiritual, pelos estudantes de teologia. Entretanto autores conceituados defendem que o comportamento humano está relacionado com a sua personalidade composta pelo temperamento e o caráter, sendo este formado pelo ambiente e aquele pela genética torna o homem semelhante aos seus pais. Neste sentido investigamos se isso ocorre através da hereditariedade que transfere a natureza pecaminosa ao seu descendente tornado impossível ao homem libertar-se dessa natureza, pois não há como interromper a sequência genética desde Adão até hoje e sempre que for gerado um ser humano este herdará a genética de seus pais. Portanto, será de grande importância para a teologia à identificação e mapeamento dessa transferência, com o objetivo de conhecer para compreender o ser humano e ajudá-lo a encontrar caminhos que o levem a conhecer-se e uma vez conhecendo a si possa compreender-se e dominar este mal da humanidade chamado de pecado. Nas considerações finais esta obra traz reflexões sobre o comportamento humano e sugestões de como buscar a restauração da natureza divina ferida no Éden.

*Spanish Books in the Europe of the Enlightenment (Paris and London)*

2018-02-12 Nicolás Bas Martín In Spanish Books in the Europe of the Enlightenment (Paris and London) Nicolás Bas examines the image of Spain in eighteenth-century Europe, and in Paris and London in particular. His material has been scoured from an exhaustive interrogation of the records of the book trade. He refers to booksellers' catalogues, private collections, auctions, and other sources of information in order to reconstruct the country's cultural image. Rarely have these sources been searched for Spanish books, and never have they been as exhaustively exploited as they are in Bas' book. Both England and France were conversant with some very negative ideas about Spain. The Black Legend, dating back to the sixteenth century, condemned Spain as repressive and priest-ridden. Bas shows however, that an alternative, more sympathetic, vision ran parallel with these negative views. His bibliographical approach brings to light the Spanish books that were bought, sold and ultimately read. The impression thus obtained is likely to help us understand not only Spain's past, but also something of its present.

## La revolución de los santos

---

2008 Michael Walzer La invención de un partido ideológico, que combina fanatismo con disciplina y que se orienta directamente a la construcción de la acción política, fue el más exitoso agente revolucionario que el mundo nunca tuvo. Ese instrumento de poder, utilizado por los bolcheviques y por los jacobinos, fue, sin embargo, producto del puritanismo calvinista, su más radical innovación. En su voluntad de destruir el viejo orden para instalar un mundo nuevo, los "santos calvinistas" fueron "políticos audaces, ingeniosos y despiadados, los primeros entre esos agentes autodisciplinados de la reconstrucción social y política que han aparecido tan frecuentemente en la historia moderna". Si el estudio de la política moderna puede iniciarse en diversos momentos del siglo XVI -con Maquiavelo y el nuevo realismo político, con Lutero y los príncipes alemanes, con Bodin y la soberanía de los nuevos monarcas-, el interés de Michael Walzer no radica en el análisis de la razón de Estado, de la Iglesia nacional o de la idea de soberanía. Radica, en cambio, "en otra de esas innovaciones sorprendentes de la historia política del siglo XVI: la aparición de la organización revolucionaria y la ideología radical". Walzer muestra en esta obra que, si bien la revolución como fenómeno político y la ideología como tipo de disciplina mental y moral están muy relacionadas con la aparición del Estado moderno, lo característico es el surgimiento de "bandas de hombres especialmente designados y organizados" para desempeñar un papel creativo en el mundo político. En efecto, liderados por dos nuevos grupos sociales -los intelectuales profesionales y los laicos instruidos-, esos hombres buscaron destruir el orden establecido con el fin de reconstruir "la sociedad de acuerdo con la palabra de Dios o los planes de sus iguales".

Women who are pregnant are also advised not to undergo acupuncture treatment. However, they can engage in that once the baby is born.

How well the acupuncture treatment will go depends also on specialist who will be performing it. You have to take into account their years of experience and skill so they are able to make the correct diagnosis, finding the acupoints in the body, the angle at which the needles will be inserted and the techniques they know as there are different types of acupuncture.

This brings us to asking ourselves how to find a skill acupuncturist. For this to work, we have to do ask our doctor if they can refer anyone. It wouldn't hurt to also do some research online. After all, there are about 3,000 acupuncturists all across the country so it won't be that hard to find one.

**Opportunity Pecado Original Capitulo 399**-The repetition Pap test will be suggested by the gynecologist. When a girl becomes sexually active, she will have to test for cervical cancer after three years of becoming active because it usually takes many years for the significant development of cancer or abnormality. Usually there are some cervical cell changes and transient human papilloma virus infections or HPV infections which are very common. Therefore, a Pap test for cervical cancer is recommended every three years. But women who are under thirty years are at a higher risk of getting HPV infections of higher risk. It would be more feasible if every individual takes advice from her doctor about when she can begin screening, the frequency of the test to be taken, and when she can discontinue the tests.

In a Pap test, if abnormal cells are determined, usually more tests are recommended to detect abnormalities which will require treatment. Abnormal Pap test will be handled differently for adolescents when compared to adults. Usually the low grade cervical lesions will not require any treatment and will go away on their own. That is the reason why the Pap test is repeated after a gap of six to twelve months, after the original Pap test which identifies abnormalities. But this repetition will vary from individual to individual depending on her health status and kind of abnormalities found.

A replacement of the Pap test is thinprep test. It involves

new technique for testing cells from the cervix for abnormalities. But the cost of getting a thinprep test done is double the cost of getting Pap test done. The advantage of getting a thinprep test is that it requires to be re-done less number of times and detects lesions in initial stages itself. The cervical cells, instead of getting smeared on a slide, are introduced into a liquid vial. After the filtration of the liquid, the cells from the cervix are examined by being placed on the slide.

Whatever form of activity you choose, make sure that you monitor your child's progress periodically. If you feel that there is no progress, you may need to change the activity. Anything that increases your child's self-esteem is good. You may enlist the help of the coach or teacher to assess your child's development.

There are certain activities that are detrimental to a child suffering from ADHD. Computer and video games are a definite NO. Since these games need no interaction, children will feel all the more isolated. These children also find it difficult to distinguish between the good and the bad messages. They may therefore show an inclination to stick to messages that are not needed. Games that need the child to sit and wait for his turn patiently tax his patience and will not be a success.

Although you would want these children to be as near to normal as possible, understanding their needs and limits will help you select the right after school activity - one that is fulfilling, tiring as well as challenging.

You won't have a hard time looking for one as the number of institutions which teach students about acupuncture have gone up at a rapid rate since 1982 when the Accreditation Commission for Acupuncture and Oriental Medicine (ACAOM) and the Council of Colleges of Acupuncture and Oriental Medicine (CCAOM) were established.

To date there are about 50 colleges and a few also offer a

As more people are opening their minds to this practice, people should know that getting an acupuncture degree will not replace traditional medicine since there are limits to what it can do for the patient. It is merely a form of holistic healthcare that works hand in hand with science to help the person deal with an illness.

When you think about it, that might be something that the practice has going for it. If it has existed already for thousands of years and is still being practiced by millions up to now, then it must have worked already for quite a number of people.

### **What typically happens when you go to an acupuncturist?**

When you go to an acupuncturist, you would typically first be asked about your medical history, how you're feeling and any symptoms of sicknesses you might have. The specialist would observe features of your face, including your tongue. According to specialists, your tongue is a good indicator of the health of your internal organs. The acupuncturist would listen to sounds that your body makes like the sounds coming from your lungs. How your body smells could also be an indicator of your overall health for the acupuncturist's diagnosis.

The good business traveler comes prepared for the trip with all of the appropriate luggage, business files, and a laptop, but often something is missing. You may think you leave home fully prepared for the trip, but in reality, you are

vulnerable. The business traveler may not be prepared for a medical emergency during the trip. Emergencies can happen anytime and anywhere. Just for this reason, people who travel away from home on frequent business trips should be prepared for such an emergency.

Although no one ever wants to use air ambulance services, it is possible that such a need may arise. The cost of a trip in an air ambulance can be extremely expensive. Fees can range from \$10,000 to \$75,000 per trip.

Business travelers really should consider purchasing air ambulance service coverage for those times when they are away from home. When travel by a conventional ambulance is not enough, an

air ambulance is called in to transport the patient safely and quickly to the desired destination. In some cases, this flight may be several hundred miles or halfway around the globe. Regardless of the point of origin or the destination, air ambulance travel is a safe alternative for patients. This is true for any NICU patient requiring special transport and monitoring.

In some instances, this is safe for patients, but if an emergency should occur, it is best to have a minimum of two medically trained personnel on hand to completely handle the emergency situation. The trained staff should have experience in emergency treatment and critical care. In specialized cases, more members should accompany a patient and the number of the team increases. When adolescents wear braces they have to take certain precautions in order to avoid any more oral health complications. The most important precautionary measure is to brush the teeth regularly after every meal. Since the food can be easily lodged in braces, it is a good idea to

brush carefully with soft bristles toothbrush and fluoride toothpaste. In the morning, the adolescent must floss between the braces and teeth. These teeth cause problem, because most of the mouths are too small to adjust new teeth and hence they need to be removed. If the wisdom tooth has place to grow, without affecting other teeth, they can be left to themselves. But if the adolescent experiences pain, facial swelling, mouth infection and gum-line swelling, then they should be extracted immediately. Five times common than asthma is tooth cavities. The tooth above the gum line is made up of enamel, the hardest tissue within the human body. The tooth below the gum-line comprise of nerves, roots and dentin. Dentin is another type of tissue and isn't as hard as the enamel. The acid which leads to tooth decay is produced by bacteria. These acids, along with dietary sugar, attach the enamel and eat away the minerals within the enamel, until a cavity is formed.

This is known as tooth cavity. The biggest prevention against dental cavities is brushing teeth twice a day and

even better, after every meal with fluoride toothpaste and soft bristle toothbrush. Carbonated drinks must be avoided strictly and must be replaced with fruit juices and sugary food must be avoided. Intake of fluoridated water also helps a lot or fluoride supplements can be used as replacement.
