Acing Business Associations Michael A. Chasalow, 2016 Softbound - New, softbound print book.

Acing Business Associations MICHAEL A. CHASALOW, 2023-09-26 This book provides a clear and concise explanation of corporations, agency and partnership, and the other subjects addressed in most Business Associations courses. To accompany its explanations, the guide utilizes a checklist format to lead students through questions they need to ask and issues they need to address, to fully evaluate the agency, partnership or corporations, problems they will face when studying this subject. It also synthesizes the material in a way that most students are unable to do on their own, and organizes the critical issues, presenting a clear guide to analyze business associations issues that students can draw upon when writing their exams. Other study aids provide sample problems, but this book offers a systematic approach to problem solving.

Business Organizations Law and Policy Jeffrey Bauman, Russell Stevenson, Robert Rhee, 2017 CasebookPlus Hardbound - New, hardbound print book includes lifetime digital access to an eBook, with the ability to highlight and take notes, and 12-month access to a digital Learning Library that includes self-assessment quizzes tied to this book, leading study aids, an outline starter, and Gilbert Law Dictionary.

Business Associations Lynn M. LoPucki, Andrew Verstein, 2020-09-17 Business Associations: A Systems Approach is the first Business Associations casebook organized by function (decision-making, finance, investor litigation, investment transfer, etc.) instead of by entity type (partnerships, corporations, LLCs, etc.). Functional organization avoids repetition and makes full coverage of corporations, partnerships, LLCs, and limited partnerships possible in a four-, or even three-, credit course. The systems approach is the basis for several successful casebooks in other fields, most notably LoPucki, Warren and Lawless's Secured Transactions: A Systems Approach. The approach focuses on the actions of the lawyers, businesspeople, and government administrators who apply law rather than merely on abstract law. Business Associations: A Systems Approach provides hundreds of realistic, fact-rich problems in legal practice settings. Students apply their new knowledge of law and how the systems work to advise hypothetical clients. The cases are recent, heavily edited, and rarely longer than five pages. Professors and students will benefit from: Full coverage of agency, corporations, partnerships, LLCs, limited partnerships and the role of legal entities in society Tables, figures, photos, and one cartoon Fundamental documents for Facebook and a hypothetical LLC (BKG Catalina) and operating agreement, which are also integrated into the text and

problems Cleanly edited, easy-to-read cases Recent cases that illustrate modern business practices and reflect current law Organization by function, which reduces the repetition required in organization by entity type Modular organization, allowing the chapters to be taught in any order An approach that any kind of entity could be made to work like any other. Other books teach what kinds of entities to use in what situations. Fact-rich, realistic problems in practice settings An introductory assignment that provides an overview of the course Clear and direct examples and explanations, free of jargon and idioms that cause difficulty for students from other cultures. Great for LL.M.s, MJSs and foreign J.D.s! A detailed glossary

The Law of Business Organizations, Cases, Materials, and Problems - CasebookPlus Robert Hamilton,Jonathan Macey,Douglas Moll,2017-05-18 As a part of our CasebookPlus offering, you'll receive a new print book along with lifetime digital access to the downloadable eBook. In addition, you'll receive 12-month online access to the Learning Library which includes quizzes tied specifically to your book, an outline starter and three leading study aids in that subject and the Gilbert® Law Dictionary. The included study aids are the Law of Corporations in a Nutshell, Acing Business Associations and Exam Pro on Business Associations, Objective. This title covers the law of business associations for introductory courses, including agency, general partnerships, closely held corporations, publicly held corporations, limited partnerships, limited liability partnerships, and limited liability companies. The material on the unincorporated business forms has been revised, updated, and expanded to reflect the centrality of these forms of business organization in modern law practice and the economy generally. Among other state and model statutes, the Uniform LLC Act (2013), the Uniform Partnership Act (2013), the Uniform Limited Partnership Act (2013), the Third Restatement of Agency (2006), and the Model Business Corporation Act (2016) are discussed and cited.

Business Associations William A. Klein,J. Mark Ramseyer,Stephen M. Bainbridge,2000 Important features of Business Associations, Fourth Edition, include: * Complete & developed materials on agency & partnership reflecting the authors' view that a good background in agency & partnership principles is important for its own sake, & for the study of corporate law * Problems helpful in illustrating material * Attention to the lawyer as planner, as opposed to litigator or critic.

Questions & Answers Douglas M. Branson,Seth C. Oranburg,John Towers Rice,2024 Questions and Answers: Business

Associations helps students better understand and develop their mastery of the law of business association in ways that will help them succeed in a standard survey course, prepare for the bar exam, and enter practice. The third edition of this popular supplement updates, clarifies, and builds upon the coverage of earlier chapters, introduces questions focused on the law of agency, and elaborates on distinctions between the Model Business Corporation Act and the Delaware General Corporation Law. Notably, the revisions of the third edition have been informed by developments announced by the National Conference of Bar Examiners in anticipation of forthcoming revisions to the bar exam. This study guide includes multiple-choice and short-answer questions arranged topically for ease of use during the semester, plus an additional set of questions comprising a comprehensive practice exam. For each multiple-choice question, the authors have provided a thorough, yet concise, explanation that both indicates which of four options is the best answer and explains why that option is better than the other three options. Each short-answer question is designed to be answered in fifteen minutes or less. For these questions, the authors provide a comprehensive, yet brief, model answer. In all, this study guide provides a useful tool for formative assessment and self-evaluation.

Business Associations in a Nutshell Joseph Shade, 2010 This book gives students taking the introductory course in business associations a succinct but reliable overview of the principal legal issues that arise in business relationships over the life cycle of the business. The book explains the basic concepts that govern these relationships and provides specific examples of how they apply. It also explains similarities and dissimilarities in the business associations covered. Finally, the book considers the background and interests in the course of the students. The book is intended to help students understand the course whether their background is in accounting or music.

Acing Criminal Law John M. Burkoff, 2017 This study aid features an innovative method of content organization. It uses a checklist format to lead students through questions they need to ask to fully evaluate the legal problem they are trying to solve. It also synthesizes the material in a way that most students are unable to do on their own, and assembles the different issues, presenting a clear guide to procedural analysis that students can draw upon when writing their exams. Other study aids provide sample problems, but none offer the systematic approach to problem solving found in this book.

Exam Pro on Business Associations, Objective Jens C. Dammann, 2021-03-08 Exam Pro-Objective on Business Associations is a study aid that helps law students prepare to take their Business Associations exam. Taking the sample objective exams and using the corresponding answers and analysis provides students with a more thorough understanding of Business Associations and a better understanding of how to take exams.
