Pathways Through Assessing, Learning and Teaching in the CEFR Enrica Piccardo,Marie Berchoud,European Centre for Modern Languages,Council of Europe,2011-01-01 Pathways presents an innovative way of reflecting on the multidimensionality of assessment, learning and teaching in line with the CEFR. It has been designed to support professionals at all levels. The two main components of Pathways - guide and kit - integrated by various indexes, mind maps and examples of scenarios, encourage users to work in a non linear way and to select and customize. The guide addresses those fundamental concepts in the CEFR that may not be readily transparent and that especially warrant unpacking for educational practices in a way that is clear and accessible for professionals, both in their pre- and in-service teacher education. The kit offers 107 worksheets, which serve as a bridge for teacher educators and teachers, to reflect on these concepts and to relate them appropriately to pedagogical practices.

Pathways to the Common Core Lucy Calkins, Mary Ehrenworth, Christopher Lehman, 2012 Lucy Calkins and her colleagues at the Reading and Writing Project have helped thousands of educators design their own pathways to the Common Core. Now, with *Pathways to the Common Core*, they are ready to help you find your way. Designed for teachers, school leaders, and professional learning communities looking to navigate the gap between their current literacy practices and the ideals of the Common Core, *Pathways to the Common Core* will help you: understand what the standards say, suggest, and what they don't say; recognize the guiding principles that underpin the reading and writing standards; identify how the Common Core's infrastructure supports a spiraling K-12 literacy curriculum; and scrutinize the context in which the CCSS were written and are being unrolled. In addition to offering an analytical study of the standards, this guide will also help you and your colleagues implement the standards in ways that lift the level of teaching and learning throughout your school.--

Read, Write, Lead Regie Routman, 2014-06-17 Literacy is a skill for all time, for all people. It is an integral part of our lives, whether we are students or adult professionals. Giving all educators the breadth of knowledge and practical tools that help students strengthen their literacy skills is the focus of *Read, Write, Lead*. Drawing on her experience as a mentor teacher, reading specialist, instructional coach, and staff developer, author Regie Routman offers time-tested advice on how to develop a schoolwide learning culture that leads to more effective reading and writing across the curriculum. She explains how every school—including yours—can: implement instructional practices that lead to better engagement and achievement in reading and writing for all students, from kindergarten through high school, including second-language and struggling learners; build Professional Literacy Communities of educators working together to create sustainable school change through professional learning based on shared beliefs; reduce the need for intervention through daily practices that ensure success, even for our most vulnerable learners; and embed the language of productive feedback in responsive instruction,

conferences, and observations in order to accelerate learning for students, teachers, and leaders. In their own voices, teachers, principals, literacy specialists, and students offer real-life examples of changes that led to dramatic improvement in literacy skills and—perhaps just as important--increased joy in teaching and learning. Scattered throughout the book are “Quick Wins”--ideas and actions that can yield positive, affirming results while tackling the tough work of long-term change.
