**Interreligious Studies** Rachel Mikva,2023-06-15 The emergence of the field of interreligious studies is emerging as a response to critical issues within our religiously plural world. Religious conflicts, large and small, continue to plague our society, as the challenges of navigating religious difference emerge in daily encounters among people who would like to get along in the public square that they fashion together. These challenges unfold within families, congregations, college campuses, workplaces, communities, media, and cyberspace. This volume offers a comprehensive introduction to interreligious studies. Providing an overview of the history, terms, and characteristics of the field, Rachel Mikva explores the ethical, philosophical, and theological foundations for pluralism. She also presents guidelines and case studies that demonstrate how interreligious understanding and solidarity can be achieved. Designed for use in undergraduate and graduate courses, the volume also will be useful to medical doctors, social workers, police officers, corporate managers, and others whose work requires multi-cultural competence.

It demonstrates that ensuring that workers have access to nutritious, safe and affordable food, an adequate meal break, and decent conditions for eating is not only socially important and economically viable but a profitable business practice, too. Food at Work sets out key points for designing a meal program, presenting a multitude of food solutions including canteens, meal or food vouchers, mess rooms and kitchenettes, and partnerships with local vendors. Through case studies from a variety of enterprises in twenty-eight industrialized and developing countries, the book offers valuable practical food solutions that can be adapted to workplaces of different sizes and with different budgets.

**Principles of Management** David S. Bright,Anastasia H. Cortes,Eva Hartmann,2023-05-16 Black & white print.

Principles of Management is designed to meet the scope and sequence requirements of the introductory course on management. This is a traditional approach to management using the leading, planning, organizing, and controlling approach. Management is a broad business discipline, and the Principles of Management course covers many management areas such as human resource management and strategic management, as well as behavioral areas such as motivation. No one individual can be an expert in all areas of management, so an additional benefit of this text is that specialists in a variety of areas have authored individual chapters.
