Families Caring for an Aging America National Academies of Sciences, Engineering, and Medicine, Health and Medicine Division, Board on Health Care Services, Committee on Family Caregiving for Older Adults, 2016-12-08 Family caregiving affects millions of Americans every day, in all walks of life. At least 17.7 million individuals in the United States are caregivers of an older adult with a health or functional limitation. The nation's family caregivers provide the lion's share of long-term care for our older adult population. They are also central to older adults' access to and receipt of health care and community-based social services. Yet the need to recognize and support caregivers is among the least appreciated challenges facing the aging U.S. population. *Families Caring for an Aging America* examines the prevalence and nature of family caregiving of older adults and the available evidence on the effectiveness of programs, supports, and other interventions designed to support family caregivers. This report also assesses and recommends policies to address the needs of family caregivers and to minimize the barriers that they encounter in trying to meet the needs of older adults.

Exploding Chippewas Mark Turcotte, 2002-05-22 Everything this poet touches is volatile—the poet himself, the people and world around him, ideas and mythologies, the ghosts of memory and the dream of possible futures, all seem to burst into fragments. Mark Turcotte uses poetry to gather up the pieces—the shards of joy and grief, peace and doubt, strength and temptation, questions and answers—as he tries to define and rediscover what is lost when everyday life becomes explosive.

Walking the Old Road Staci Lola Drouillard, 2019-12-10 The story of a once vibrant, now vanished off-reservation Ojibwe village—and a vital chapter of the history of the North Shore “We do this because telling where you are from is just as important as your name. It helps tie us together and gives us a strong and solid place to speak from. It is my hope that the stories of Chippewa City will be heard, shared, and remembered, and that the story of Chippewa City and the Grand Marais Chippewa will continue to grow. By being a part of the living narrative, Bimaadizi Aadizookaan, together we can create a new story about what was, what is, and, ultimately, what will be.” —from the Prologue At the turn of the nineteenth century, one mile east of Grand Marais, Minnesota, you would have found Chippewa City, a village that as many as 200 Anishinaabe families called home. Today you will find only Highway 61, private lakeshore property, and the one remaining village building: St. Francis Xavier Church. In Walking the Old Road, Staci Lola Drouillard guides readers through the story of that lost community, reclaiming for history the Ojibwe voices that have for so long, and so unceremoniously, been silenced. Blending memoir, oral history, and narrative, Walking the Old Road reaches back to a time when Chippewa City, then called Nishkwakwansing (at the edge of the forest), was home to generations of Ojibwe ancestors. Drouillard, whose own family once lived in Chippewa City, draws on memories, family history, historical analysis, and testimony passed from one generation to the next to conduct us through the ages of early European contact, government land allotment, family relocation, and assimilation. Documenting a story too often told by non-Natives, whether historians or travelers,

archaeologists or settlers, *Walking the Old Road* gives an authentic voice to the Native American history of the North Shore. This history, infused with a powerful sense of place, connects the Ojibwe of today with the traditions of their ancestors and their descendants, recreating the narrative of Chippewa City as it was—and is and forever will be—lived.

The Search for Sidney's Smile Marc Kornblatt, John Steven Gurney, 1993 When Sidney wakes up from his nap, his smile is gone, and he and his father spend the rest of the day looking everywhere for it.

The Feathered Heart Mark Turcotte, 1998-05-31 This revised and expanded edition of *The Feathered Heart*, Mark Turcotte's celebrated collection of Native American poetry, brings traditional oral culture to print. Torn, painful, vibrant, and full of hope, his poetry weaves together the multilayered and textured fabric of contemporary Native American urban and rural existence. Appropriately, each poem in *The Feathered Heart* possesses a deeply lyrical quality. Raw emotion echoes in Turcotte's voice, in his verse, in the things he sees. *Ten Thousand Thousand Bones*, for example, a poem about the desecration of Native American burial sites and objects by archeologists, is dedicated to an ancient woman taken from the Earth near New Lenox, Illinois in the winter 1993/94.

Law and Bioethics Michael D. A. Freeman, 2008 *Current Legal Issues*, like its sister volume *Current Legal Problems*, is based upon an annual colloquium held at University College London. Each year, leading scholars from around the world gather to discuss the relationship between law and another discipline of thought. Each colloquium examines how the external discipline is conceived in legal thought and argument, how the law is pictured in that discipline, and analyses points of controversy in the use, and abuse, of extra-legal arguments within legal theory and practice. *Law and Bioethics*, the latest volume in the *Current Legal Issues* series, contains a broad range of essays by scholars interested in the interactions between law and bioethics. It includes studies examining the regulation of stem cell research, human rights and bioethics, the regulation of reproductive technologies, and distributive justice in healthcare and pandemic planning.

What the Chickadee Knows Margaret Noodin, 2020-09-15 Modern poems conceived first in Anishinaabemowin and then in English. Margaret Noodin explains in the preface of her new poetry collection, *What the Chickadee Knows* (Gijigijigaaneshiinh Gikendaan), Whether we hear giji-giji-gaane-shii-shii or chick-a-dee-dee-dee depends on how we have been taught to listen. Our world is shaped by the sounds around us and the filter we use to turn thoughts into words. The lines and images here were conceived first in Anishinaabemowin and then in English. They are an attempt to hear and describe the world according to an Anishinaabe paradigm. The book is concerned with nature, history, tradition, and relationships, and these poems illuminate the vital place of the author's tribe both in the past and within the contemporary world. *What the Chickadee Knows* is a gesture toward a future that includes Anishinaabemowin and other indigenous

languages seeing growth and revitalization. This bilingual collection includes Anishinaabemowin and English, with the poems mirroring one another on facing pages. In the first part, *What We Notice* (E-Maaminonendamang), Noodin introduces a series of seasonal poems that invoke Anishinaabe science and philosophy. The second part, *History* (Gaa Ezhiwebag), offers nuanced contemporary views of Anishinaabe history. The poems build in urgency, from observations of the natural world and human connection to poems centered in powerful grief and remembrance for events spanning from the Sandy Lake Tragedy of 1850, which resulted in the deaths of more than four hundred Ojibwe people, to the Standing Rock water crisis of 2016, which resulted in the prosecution of Native protesters and, ultimately, the completion of the Dakota Access Pipeline on sacred land. The intent of *What the Chickadee Knows* is to create a record of the contemporary Anishinaabe worldview as it is situated between the traditions of the past and as it contributes to the innovation needed for survival into the future. Readers of poetry with an interest in world languages and indigenous voices will need this book.

The Farfarers Farley Mowat, 2002-04-09 In this provocative bestseller, Farley Mowat challenges the conventional notion that the Vikings were the first Europeans to reach northern Canada. Mowat offers instead an unforgettable portrait of the Albans, a race originating from the island now known as Britain. Battered by repeated invasions from their aggressive neighbours—Celt, Roman and Norse—the Albans boarded seaworthy, skin-covered boats and fled west. Their search for safety, and for the massive walrus herds on which their survival depended, took them first to Iceland, then to Greenland, and, finally, to the land now known as Newfoundland and Labrador. Skillfully weaving together clues gathered from forty years of research, Mowat presents a fascinating account of a forgotten history. *The Farfarers* affirms Mowat's status as one of

Canada's most powerful chroniclers.
