Indigenous Food Systems Priscilla Settee, Shailesh Shukla, 2020-01-31 *Indigenous Food Systems* addresses the disproportionate levels of food-related health disparities among First Nations, Métis, and Inuit people in Canada, seeking solutions to food insecurity and promoting well-being for current and future generations of Indigenous people. Through research and case studies, Indigenous and non-Indigenous food scholars and community practitioners explore salient features, practices, and contemporary challenges of Indigenous food systems across Canada. Highlighting Indigenous communities' voices, the contributing authors document collaborative initiatives between Indigenous communities, organizations, and non-Indigenous allies to counteract the colonial and ecologically destructive monopolization of food systems. This timely and engaging collection celebrates strategies to revitalize Indigenous food systems, such as achieving cultural resurgence and food sovereignty; sharing and mobilizing diverse knowledges and voices; and reviewing and reformulating existing policies, research, and programs to improve the health, well-being, and food security of Indigenous and Canadian populations. *Indigenous Food Systems* is a critical resource for students in Indigenous studies, public health, anthropology, and the social sciences as well as a vital reader for policymakers, researchers, and community practitioners.

The Framework for Teaching Evaluation Instrument, 2013 Edition Charlotte Danielson, 2013 The framework for teaching document is an evolving instrument, but the core concepts and architecture (domains, components, and elements) have remained the same. Major concepts of the Common Core State Standards are included. For example, deep conceptual understanding, the importance of student intellectual engagement, and the precise use of language have always been at the foundation of the Framework for Teaching, but are more clearly articulated in this edition. The language has been tightened

to increase ease of use and accuracy in assessment. Many of the enhancements to the Framework are located in the possible examples, rather than in the rubric language or critical attributes for each level of performance.
