The Cambridge History of French Literature
2011-02-24 William Burgwinkle From Occitan poetry to Francophone writing produced in the Caribbean and North Africa, from intellectual history to current films, and from medieval manuscripts to bandes dessinées, this History covers French literature from its beginnings to the present day. With equal attention to all genres, historical periods and registers, this is the most comprehensive guide to literature written in French ever produced in English, and the first in decades to offer such an array of topics and perspectives. Contributors attend to issues of orality, history, peripheries, visual culture, alterity, sexuality, religion, politics, autobiography and testimony. The result is a collection that, despite the wide variety of topics and perspectives, presents a unified view of the richness of French-speaking cultures. This History gives support to the idea that French writing will continue to prosper in the twenty-first century as it adapts, adds to, and refocuses the rich legacy of its past.

A Cultural History of Money in the Medieval Age
2021-03-11 Bloomsbury Publishing Money provides a unique and illuminating perspective on the Middle Ages. In much of medieval Europe the central meaning of money was a prescribed unit of precious metal but in practice precious metal did not necessarily change hands and indeed coinage was very often in short supply. Money had economic, institutional, social, and cultural dimensions which developed the legacy of antiquity and set the scene for modern developments including the rise of capitalism and finance as well as a moralized discourse on the proper and improper uses of money. In its many forms - coin, metal, commodity, and concept - money played a central role in shaping the character of medieval society and, in turn, offers a vivid reflection of the distinctive features of medieval civilization. Drawing upon a wealth of visual and textual sources, A Cultural History of Money in the Medieval Age presents essays that examine key cultural case studies of the period on the themes of technologies, ideas, ritual and religion, the everyday, art and representation, interpretation, and the issues of the age.

Staufen and Plantagenets
2019-01-21 Alheydis Plassmann This volume focuses on phenomena, structures and constellations of power and rule in the 12th century from a comparative perspective. Comparing England and the Empire is a promising research project, because the Staufen and the Plantagenets ruled over more than one kingdom and claimed hegemony. Therefore, the divergence between legality and the demands of ruling over diverse lordships can be explored. The examples of extended royal rule in different constellations, treated by international authors, show how the practice of power and the structures of rule based on legitimate claims diverge.

Law and the Illicit in Medieval Europe

2013-02-11 Ruth Mazo Karras In the popular imagination, the Middle Ages are often associated with lawlessness. However, historians have long recognized that medieval culture was characterized by an enormous respect for law and legal procedure. This book makes the case that one cannot understand the era’s cultural trends without considering the profound development of law.

The World the Plague Made

2024-06-25 James Belich A groundbreaking history of how the Black Death unleashed revolutionary change across the medieval world and ushered in the modern age. In 1346, a catastrophic plague beset Europe and its neighbours. The Black Death was a human tragedy that abruptly halved entire populations and caused untold suffering, but it also brought about a cultural and economic renewal on a scale never before witnessed. The World the Plague Made is a panoramic history of how the bubonic plague revolutionized trade, technology, and society and set the stage for Europe’s global expansion. James Belich takes readers across centuries and continents to shed new light on one of history’s greatest paradoxes. Why did Europe’s dramatic rise begin in the wake of the Black Death? Belich shows how plague doubled the per capita endowment of everything even as it decimated the population. Many more people had disposable incomes. Demand grew for silks, sugar, spices, furs, gold, and slaves. Europe expanded to satisfy that demand—and plague provided the means. Labour scarcity drove more use of waterpower, wind power, and gunpowder. Technologies like water-powered blast furnaces, heavily gunned galleons, and musketry were fast-tracked by plague. A new “crew culture” of “disposable males” emerged to man the guns and galleons. Setting the rise of Western Europe in global context, Belich demonstrates how the mighty empires of the Middle East and Russia also flourished after the plague, and how European expansion was deeply entangled with the Chinese and other peoples throughout the world.

Navigating World History

2003-05-15 P. Manning World history has expanded dramatically in recent years, primarily as a teaching field, and increasingly as a research field. Growing numbers of teachers and Ph.Ds in history are required to teach the subject. They must be current on topics from human evolution to industrial development in Song-dynasty China to today’s disease patterns - and then link these disparate topics into a coherent course. Numerous textbooks in print and in preparation summarize the field of world history at an introductory level. But good teaching also requires advanced training for teachers, and access to a stream of new research from scholars trained as world historians. In this book, Patrick Manning provides the first comprehensive overview of the academic field of world history. He reviews patterns of research and debate, and proposes guidelines for study by
teachers and by researchers in world history.

Women and the Crusades
2023-01-24 Helen J. Nicholson The crusade movement needed women: their money, their prayer support, their active participation, and their inspiration... This book surveys women's involvement in medieval crusading between the second half of the eleventh century, when Pope Gregory VII first proposed a penitential military expedition to help the Christians of the East, and 1570, when the last crusader state, Cyprus, was captured by the Ottoman Turks. It considers women's actions not only on crusade battlefields but also in recruiting crusaders, supporting crusades through patronage, propaganda, and prayer, and as both defenders and aggressors. It argues that medieval women were deeply involved in the crusades but the roles that they could play and how their contemporaries recorded their deeds were dictated by social convention and cultural expectations. Although its main focus is the women of Latin Christendom, it also looks at the impact of the crusades and crusaders on the Jews of western Europe and the Muslims of the Middle East, and compares relations between Latin Christians and Muslims with relations between Muslims and other Christian groups.

A Cultural History of Sport in the Medieval Age
2022-08-31 Noel Fallows A Cultural History of Sport in the Medieval Age covers the period 600 to 1450. Lacking any viable ancient models, sport evolved into two distinct forms, divided by class. Male and female aristocrats hunted and knights engaged in jousting and tournaments, transforming increasingly outdated modes of warfare into brilliant spectacle. Meanwhile, simpler sports provided recreational distraction from the dangerously unsettled conditions of everyday life. Running, jumping, wrestling, and many ball games - soccer, cricket, baseball, golf, and tennis - had their often violent beginnings in this period. The 6 volume set of the Cultural History of Sport presents the first comprehensive history from classical antiquity to today, covering all forms and aspects of sport and its ever-changing social, cultural, political, and economic context and impact. The themes covered in each volume are the purpose of sport; sporting time and sporting space; products, training and technology; rules and order; conflict and accommodation; inclusion, exclusion and segregation; minds, bodies and identities; representation. Noel Fallows is Distinguished Research Professor at the University of Georgia, USA. Volume 2 in the Cultural History of Sport set General Editors: Wray Vamplew, Mark Dyreson, and John McClelland

Nation-States
2016-05-30 Neil Davidson In his latest collection of essays, Neil Davidson brings his formidable analytical powers to bear on the concept of the capitalist nation-state. Through probing inquiry, Davidson draws out how nationalist ideology and consciousness is used to bind the subordinate
classes to “the nation,” while simultaneously using “the state” as a means of conducting geopolitical competition for capital.

More

2020-03-24 Philip Coggan A sweeping history that tracks the development of trade and industry across the world, from Ancient Rome to today. From the development of international trade fairs in the twelfth century to the innovations made in China, India, and the Arab world, it turns out that historical economies were much more sophisticated that we might imagine, tied together by webs of credit and financial instruments much like our modern economy. Here, Philip Coggan takes us from the ancient mountains of North Wales through Grand Central station and the great civilizations of Mesopotamia to the factories of Malaysia, showing how changes in agriculture, finance, technology, work, and demographics have driven the progress of human civilization. It's the story of how trade became broader and deeper over thousands of years; how governments have influenced economies, for good or ill; and how societies have repeatedly tried to tame, and harness, finance. More shows how, at every step of our long journey, it was the connection between people that resulted in more trade, more specialization, more freedom, and ultimately, more prosperity.

Power and Identity in the Middle Ages

2007-07-12 Huw Pryce Collecting sixteen thought-provoking new essays by leading medievalists, this volume celebrates the work of the late Rees Davies. Reflecting Davies' interest in identities, political culture and the workings of power in medieval Britain, the essays range across ten centuries, looking at a variety of key topics. Issues explored range from the historical representations of peoples and the changing patterns of power and authority, to the notions of 'core' and 'periphery' and the relationship between local conditions and international movements. The political impact of words and ideas, and the parallels between developments in Wales and those elsewhere in Britain, Ireland and Europe are also discussed. Appreciations of Rees Davies, a bibliography of his works, and Davies' own farewell speech to the History Faculty at the University of Oxford complete this outstanding tribute to a much-missed scholar.

The Emergence of the Global Political Economy

2002-11-01 William Thompson The Emergence of the Global Political Economy challenges the assumption that the international political economy is a recent phenomenon. Instead this volume asserts that the current global political economy began to take shape around 1500 and that some of today's key processes were already perceivable several hundred years ago. The book explains the interdependence between long-term economic growth, global political leadership and global war and how this interdependence has evolved over the last 500 years, and includes discussion of: *the ascendance of Western Europe and the significance of the 1490s *the military superiority thesis *sequences of leadership and of challenge to the global political economy *the importance of commodities from sugar and cloth to slaves and bullion *the Anglo-American rivalry until the First World War.

Ireland's History
2013-12-05 Kenneth L. Campbell Ireland’s History provides an introduction to Irish history that blends a scholarly approach to the subject, based on recent research and current historiographical perspectives, with a clear and accessible writing style. All the major themes in Irish history are covered, from prehistoric times right through to present day, from the emergence of Celtic Christianity after the fall of the Roman Empire, to Ireland and the European Union, secularism and rapprochement with the United Kingdom. By avoiding adopting a purely nationalistic perspective, Kenneth Campbell offers a balanced approach, covering not only social and economic history, but also political, cultural, and religious history, and exploring the interconnections among these various approaches. This text will encourage students to think critically about the past and to examine how a study of Irish history might inform and influence their understanding of history in general.

"The Making of Europe"

2016-05-09 In “The Making of Europe”: Essays in Honour of Robert Bartlett, a group of distinguished contributors analyse processes of conquest, colonization and cultural change in Europe in the tenth to fourteenth centuries.

The Expansion of Central Europe in the Middle Ages
2017-05-15 Nora Berend This volume brings together a set of key studies on the history of medieval Central Europe (Bohemia, Hungary, Poland), along with others specially commissioned for the book or translated, and a new introduction. This region was both an area of immigration, and one of polities in expansion. Such expansion included the settlement and exploitation of previously empty lands as well as rulers' attempts to incorporate new territories under their rule, although these attempts did not always succeed. Often, German immigration has been prioritized in scholarship, and the medieval expansion of Central Europe has been equated with the expansion of Germans. Debates then focused on the positive or negative contribution of Germans to local life, and the consequences of their settlement. This perspective, however, distorts our understanding of medieval processes. On the one hand, Central Europe was not a passive recipient of immigrants. Local rulers and eventually nobles benefited from and encouraged immigration; they played an active role. On the other hand, German immigration was not a unified movement, and cannot be equated with a drang nach osten. Finally, not just Germans, but also various Romance-speaking and other immigrant groups settled in Central Europe. This volume, therefore, seeks to present a more complex picture of medieval expansion in Central Europe.

Scottish Independence and the Idea of Britain
2013-08-20 Dauvit Broun This book offers a fresh perspective on the question of Scotland's relationship with Britain. It challenges the standard concept of the Scots as an ancient nation whose British identity only emerged in the early modern era.

**Decolonizing International Relations**
2006 Branwen Gruffydd Jones The discipline of International Relations (IR) is concerned with the powerful states and actors in the global political economy and dominated by North American and European scholars. This book exposes the ways in which IR has consistently ignored questions of colonialism, imperialism, race, slavery, and dispossession in the non-European world.

**The Making of Europe**
1993 Robert Bartlett This provocative book shows that Europe in the Middle Ages was as much a product of a process of conquest and colonization as it was later a colonizer. "Will be of great interest to... (those) interested in cultural transformation, colonialism, racism, the Crusades, or holy wars in general..." --William C. Jordan, Princeton University. 12 halftones, 12 maps, 6 diagrams.

**Saracens and the Making of English Identity**
2013-11-05 Siobhain Bly Calkin This book explores the ways in which discourses of religious, racial, and national identity blur and engage each other in the medieval West. Specifically, the book studies depictions of Muslims in England during the 1330s and argues that these depictions, although historically inaccurate, served to enhance and advance assertions of English national identity at this time. The book examines Saracen characters in a manuscript renowned for the variety of its texts, and discusses hagiographic legends, elaborations of chronicle entries, and popular romances about Charlemagne, Arthur, and various English knights. In these texts, Saracens engage issues such as the demarcation of communal borders, the place of gender norms and religion in communities' self-definitions, and the roles of violence and history in assertions of group identity. Texts involving Saracens thus serve both to assert an English identity, and to explore the challenges involved in making such an assertion in the early fourteenth century when the English language was regaining its cultural prestige, when the English people were increasingly at odds with their French cousins, and when English, Welsh, and Scottish sovereignty were pressing matters.

Making Enemies
2006-12-07 R. Barker Whom a prime minister or president will not shake hands with is still more noticed than with whom they will. Public identity can afford to be ambiguous about friends, but not about enemies. Barker examines the accounts of how enmity functions in the cultivation of identity, how essential or avoidable it is, and what the global consequences are.

Meeting the Enemy
2012-06 Natsu Taylor Saito Since its founding, the United States has defined itself as the supreme protector of freedom throughout the world, pointing to its Constitution as the model of law to ensure democracy at home and to protect human rights internationally. Although the United States has consistently emphasized the importance of the international legal system, it has simultaneously distanced itself from many established principles of international law and the institutions that implement them. In fact, the American government has attempted to unilaterally reshape certain doctrines of international law while disregarding others, such as provisions of the Geneva Conventions and the prohibition on torture. America’s selective self-exemption, Natsu Taylor Saito argues, undermines not only specific legal institutions and norms, but leads to a decreased effectiveness of the global rule of law. Meeting the Enemy is a pointed look at why the United States’ frequent—if selective—disregard of international law and institutions is met with such high levels of approval, or at least complacency, by the American public.

*The Hanged Man*

2006-04-02 Robert Bartlett Seven hundred years ago, executioners led a Welsh rebel named William Cragh to a wintry hill to be hanged. They placed a noose around his neck, dropped him from the gallows, and later pronounced him dead. But was he dead? While no less than nine eyewitnesses attested to his demise, Cragh later proved to be very much alive, his resurrection attributed to the saintly entreaties of the defunct Bishop Thomas de Cantilupe. The Hanged Man tells the story of this putative miracle—why it happened, what it meant, and how we know about it. The nine eyewitness accounts live on in the transcripts of de Cantilupe’s canonization hearings, and these previously unexamined documents contribute not only to an enthralling mystery, but to an unprecedented glimpse into the day-to-day workings of medieval society. While unraveling the haunting tale of the hanged man, Robert Bartlett leads us deeply into the world of lords, rebels, churchmen, papal inquisitors, and other individuals living at the time of conflict and conquest in Wales. In the process, he reconstructs voices that others have failed to find. We hear from the lady of the castle where the hanged man was imprisoned, the laborer who watched the execution, the French bishop charged with investigating the case, and scores of other members of the medieval citizenry. Brimming with the intrigue of a detective novel, The Hanged Man will appeal to both scholars of medieval history and general readers alike.
Plenitude of Power

2016-04-22 Robert C. Figueira 'I study power' - so Robert Louis Benson described his work as a scholar of medieval history. This volume unites papers by a number of his students dealing with matters central to Benson's historical interests - ecclesiastical institutions and administration, emperorship and papacy, canon law, political ideology, and historiography. The justification and exercise of political power is considered in two chapters that look at how the hagiography of a late Roman military saint, Maurice, was harnessed in the 11th century to the discussion of the power exercised by both emperor and pope, and how both pious purpose and political pretext animated the Hohenstaufen emperors' suppression of heresy. Three subsequent chapters focus on the Church: a study of the legal commentaries that taught that the 'authority to bind and loose' in a specific ecclesiastical matter could be determined by the opinions of 'the elders of the province'; an argument that Innocent III's administration of the Roman church represented a model for the ordering of all Christian society; and an inquiry into the doctrinal formation of the 'territorial principle' in the exercise of jurisdiction by papal legates. The late Middle Ages provides the focus for two additional studies, namely an exploration of the issues of power and authority in the charitable institutions of Cologne in the 13th-14th centuries, and the argument that the current desire for universal standards of governmental conduct in the area of basic human rights hearkens back to natural law theory as outlined in the 15th century by Nicholas of Cusa. Two historiographical studies round out the volume: an estimation of modern research regarding the political theology of late antiquity, and a reflection on Benson's own contribution to historical scholarship. Together, these papers both epitomize and further develop Benson's distinctive approach to the study of the Middle Ages, while themselves making their own important contribution.

White before whiteness in the late Middle Ages

2024-01-09 Wan-Chuan Kao This groundbreaking book analyses premodern whiteness as operations of fragility, precarity and racialicity across bodily and nonsomatic figurations. It argues that while whiteness participates in the history of racialisation in the late medieval West, it does not denote skin tone alone. The ‘before’ of whiteness, presupposing essence and teleology, is less a retro-futuristic temporisation – one that simultaneously looks backward and faces forward – than a discursive figuration of how white becomes whiteness. Fragility delineates the limits of ruling ideologies in performances of mourning as self-defence against perceived threats to subjectivity and desire; precarity registers the ruptures within normative values by foregrounding the unmarked vulnerability of the body politic and the violence of cultural aestheticisation; and racialicity attends to the politics of recognition and the technologies of enfleshment at the systemic edge of life and nonlife.

Mastering the Law

2020-11-17 Ricardo Raúl Salazar Rey Explores the legal relationships of enslaved people and their descendants during the sixteenth and seventeenth centuries in Spanish America Atlantic slavery can be overwhelming in its immensity and brutality, as it involved more than 15 million souls forcibly displaced by European imperialism and consumed in building the global economy. Mastering the Law: Slavery and Freedom in the Legal Ecology of the Spanish Empire lays out the deep history of Iberian slavery, explores its role in the Spanish Indies, and shows how Africans and their descendants used and shaped the legal system as they established their place in Iberoamerican society during the seventeenth century. Ricardo Raúl Salazar Rey places the institution of slavery and the people involved with it at the center of the creation story of Latin America. Iberoamerican customs and laws
and the institutions that enforced them provided a common language and a forum to resolve disputes for Spanish subjects, including enslaved and freedpeople. The rules through which Iberian conquerors, settlers, and administrators incorporated Africans into the expanding Empire were developed out of the need of a distant crown to find an enforceable consensus. Africans and their mestizo descendants, in turn, used and therefore molded Spanish institutions to serve their interests. Salazar Rey mined extensively the archives of secular and religious courts, which are full of complex disputes, unexpected subversions, and tactical alliances among enslaved people, freedpeople, and the crown. The narrative unfolds around vignettes that show Afroiberians building their lives while facing exploitation and inequality enforced through violence. Salazar Rey deals mostly with cases originating from Cartagena de Indias, a major Atlantic port city that supported the conquest and rule of the Indies. His work recovers the voices and indomitable ingenuity that enslaved people and their descendants displayed when engaging with the Spanish legal ecology. The social relationships animating the case studies represent the broader African experience in the Americas during the sixteenth and seventeenth centuries.

Angels on the Edge of the World

2006 Kathy Lavezzo In a view that sweeps from the tenth century to the mid 16th century, this text shows how the English people's concern with their island's relative isolation on the global map contributed to the emergence of a distinctive English national consciousness in which marginality came to be seen as a virtue.

The Normans and the 'Norman Edge'

2019-11-26 Keith J Stringer Modern historians of the Normans have tended to treat their enterprises and achievements as a series of separate and discrete histories. Such treatments are valid and valuable, but historical understanding of the Normans also depends as much on broader approaches akin to those adopted in this book. As the successor volume to Norman Expansion: Connections, Continuities and Contrasts, it complements and significantly extends its findings to provide a fuller appreciation of the roles played by the Normans as one of the most dynamic and transformative forces in the history of medieval ‘Outer Europe’. It includes panoramic essays that dissect the conceptual and methodological issues concerned, suggest strategies for avoiding associated pitfalls, and indicate how far and in what ways the Normans and their legacies served to reshape sociopolitical landscapes across a vast geography extending from the remotest corners of the British Isles to the Mediterranean basin. Leading experts in their fields also provide case-by-case analyses, set within and between different areas, of themes such as lordship and domination, identities and identification, naming patterns, marriage policies, saints’ cults, intercultural exchanges, and diaspora–homeland connections. The Normans and the ‘Norman Edge’ therefore presents a potent combination of thought-provoking overviews and fresh insights derived from new research, and its wide-ranging comparative focus has the advantage of illuminating aspects of the Norman past that traditional regional or national histories often do not reveal so clearly. It likewise makes a major contribution to current Norman scholarship by reconsidering the links between
Norman expansion and ‘state-formation’; the extent to which Norman practices and priorities were distinctive; the balance between continuity and innovation; relations between the Normans and the indigenous peoples and cultures they encountered; and, not least, forms of Norman identity and their resilience over time. An extensive bibliography is also one of this book’s strengths.

Rebel Barons

2017-08-15 Luke Sunderland Ambivalence towards kings, and other sovereign powers, is deep-seated in medieval culture: sovereigns might provide justice, but were always potential tyrants, who usurped power and ‘stole’ through taxation. Rebel Barons writes the history of this ambivalence, which was especially acute in England, France, and Italy in the twelfth to fifteenth centuries, when the modern ideology of sovereignty, arguing for monopolies on justice and the legitimate use of violence, was developed. Sovereign powers asserted themselves militarily and economically provoking complex phenomena of resistance by aristocrats. This volume argues that the chansons de geste, the key genre for disseminating models of violent noble opposition to sovereigns, offer a powerful way of understanding acts of resistance. Traditionally seen as France’s epic literary monuments - the Chanson de Roland is often presented as foundational of French literature - chansons de geste in fact come from areas antagonistic to France, such as Burgundy, England, Flanders, Occitania, and Italy, where they were reworked repeatedly from the twelfth century to the fifteenth and recast into prose and chronicle forms. Rebel baron narratives were the principal vehicle for aristocratic concerns about tyranny, for models of violent opposition to sovereigns and for fantasies of escape from the Carolingian world via crusade and Oriental adventures. Rebel Barons reads this corpus across its full range of historical and geographical relevance, and through changes in form, as well as placing it in dialogue with medieval political theory, to bring out the contributions of literary texts to political debates. Revealing the widespread and long-lived importance of these anti-royalist works supporting regional aristocratic rights to feud and revolt, Rebel Barons reshapes our knowledge of reactions to changing political realities at a crux period in European history.

While children should be allowed to have fun, they should be curtailed from unacceptable behavior. The best way to enforce discipline is to lay down the rules at the very beginning. Let the children know what is unacceptable, right at the beginning. Rewards are an important part of any learning process. The reward can be a simple pat on the back or a token of appreciation. Motivate your children to aspire for higher things by rewarding their achievements. Holding competitions or sport activities where the children can show their proficiency is a reward in itself.

Children can get bored easily, especially in the case of an educational program. The main thrust of an academic program is to repeat what has been taught in class and to allow the child to learn it quickly. It is difficult to pique the child’s interest a second time, especially when the child is already tired of one dose of the same lesson. It is best to thwart boredom by using creative techniques like an impromptu extempore on any topic, a quiz program or a slideshow.

Allergic reactions can range from mild symptoms like runny nose to more severe ones such as difficulty in breathing. Teenagers suffering from asthma often have allergic reaction to cold and get asthma attack is another example of allergies. Some kinds of allergies trigger multiple symptoms. Allergic reactions in very rare cases also produce severe reaction known as "anaphylaxis" for which the signs are difficulty in breathing, difficulty in swallowing, swelling in tongue, lips and throat and dizziness. This allergic reaction occurs as soon as the system is exposed to substances that trigger allergic reactions like peanut although some reactions are delayed by as much as four hours.

The reasons why people get allergies can be various and one of the reasons could be hereditary but that does not necessarily mean that children are bound to get allergies from their parents. Some of the common allergens include food, airborne particles, insect bite and sting, medicines, chemicals etc. Food allergies typically occur in infants and usually vanish as the child grows. The list of food allergens includes milk & dairy products, wheat, soy, eggs, peanuts, and seafood. Some people are allergic to stings and bites of certain insects. The venom in the bite is the one which actually causes reaction and can be as serious as anaphylactic in some teens. Some teens are also allergic to airborne particles which are also known as environmental allergens. They are also the commonest of all the allergens. Examples of these allergens include dust mites, animal dander, mold spores, grass pollens, trees and ragweed. Some adolescents are also allergic to certain antibiotic medicines.

Another common allergen is chemical, certain chemicals present in laundry detergents or cosmetics can cause rashes that are itchy in nature. Allergists usually treat allergic problems. They may ask questions like symptoms of the allergy and whether it is hereditary. They may also prescribe certain diagnostic tests like blood or skin test depending on the type of allergy. The best way to treat allergies is to completely avoid the substances that cause allergies. However there are certain medications and injections are also available to treat allergies.

Anyone can try facial acupuncture because it is painless and it has proven to reverse the signs of aging. However, if you are pregnant, suffer from the colds or flu, have acute herpes or an allergic reaction, it is best to wait until this has passed. But before anyone can try facial acupuncture, they first have to be evaluated by the acupuncturist. This person will evaluate your age, lifestyle and diet. If everything looks good, then you will probably do an average of about 12 to 15 treatments. More could be done if your skin tends to sag, manifest jowls or have droopy eyes.

Facial acupuncture treatment needs to be done twice a week for about 45 minutes to 1 hour. For those who can’t make two sessions in a week, they can opt for the 1 treatment that will last 90 minutes.

Over 200,000 animals are listed at any given time, all easily searchable and most with pictures. Youre not limited to just dog, cats, and the occasional hamster, either. Sites like PetFinder have listings for all types of animals, from pigs to snakes and alpacas to sugar gliders. Simply specify the type of animal youre after in the search box, and watch how many results you get. Need a gecko near Castle Rock, CO? Done and done.

Many people hear the term "pet adoption" and think that only adult animals can be adopted. Perhaps youre hesitant to adopt an adult animal. After all, part of the experience of owning a pet is raising and training it as your own. But while puppies and kittens are awfully cute, they are also a handful. They require a lot of work, training and patience. They have more energy than you may have ever thought possible, and they are in constant need of attention. For some, the joy of a baby animal is worth enduring these difficulties. For those who want an animal but not the aggravation, mature pets are the way to go. A lot of the animals on pet adoption websites are from shelters, so there are plenty of adults available...but there are also plenty of adorable puppies and kittens who need homes, too. Whichever is your preference, you will be able to find it online.

Once youve narrowed down your search, you can start looking at listings. A lot of information, including picture previews, is available right from the listing summary. The animals location, breed, general age, gender and name are listed right on the results page. There are also icons that give any special housing needs, such as for animals who need to be in a home without small children or other animals. When you see an
animal you like, click on its name to read more about it. From there, its just a matter of a phone call or e-mail to initiate the eventual process of adoption.

In the long-term scenario bruises, sprains and strains heal pretty quickly in kids and teenagers but it is important that the adolescent sticks to the restrictions imposed during the treatment and healing process like restriction of activity and regularly attending physical therapy sessions if any. It is noted that majority of the sports related injuries results either due to traumatic injury or excessive use of muscles and joints. But, they can be avoided and prevented with right training, by wearing right protective gears and by using right equipment for training.

**Tennis Elbow in Adolescents**

Tennis elbow is a condition in which tendon fibers that attach on epicondyle on the elbow’s exterior degenerates. The tendons talked about here anchor the muscles that help wrist and hand to lift. Although tennis elbow occurs mostly in patients of thirty to fifty years of age but it can happen to people of any age. Also tennis elbow affects almost fifty percent of teenagers who are in racquet sports thus the name “tennis elbow”. But still most of the patients who suffer with tennis elbow are people who don’t play racquet sports. Majority if the times there isn’t any specific injury before the symptoms start showing up. Tennis elbow can also happen to people who use their forearm muscles frequently and vigorously for day to day work and recreational activities. Ironically some patients develop the condition without any of the activity related reasons that leads to the symptoms.

The symptoms of tennis elbow include severe burning pain on the elbow’s exterior region. In majority of the cases this starts as a slow and mild pain gradually worsening with the passage of few weeks or sometimes months. The pain worsens when one tries to lift objects. In some cases it may pain even while lifting light objects like a book or full coffee cup. In the severest cases it can pain even at the movement of the elbow.

OCD is a sign of brain circuitry’s unusual functioning and it involves the striatum part of the brain. The brain activity patterns of such people differ from normal people and people with other mental disorders. Researchers have concluded that OCD is usually a family problem and is a disorder of the brain. Streptococcal bacterial infection can create or worsen the condition of OCD. Adolescents with no family history of OCD can also develop it. Most of the adolescents feel embarrassed to talk about their OCDS. They think that people will label them as crazy and this will make them feel ashamed. This will make it difficult for the parents to talk to their children about their OCD, in order to solve them.
need to develop good communication skills for this purpose. Parent’s support is also very important to the adolescent. Cooperation is extremely important along with treatment, because if the problem is not treated the adolescent will grow into a disturbed adult.

Most of the adolescents with OCD can receive effective treatment. The treatment can include psychotherapy and intake of medications such as fluoxetine, clomipramine, fluvoxamine, paroxetine, sertraline and other serotonin reuptake inhibitors. When OCD is caused due to streptococcal infection, the adolescent can be administered with antibiotics to kill the bacterium which is causing it. Exposure and response prevention behavioral therapy is very useful in solving OCD. In this therapy, the adolescent is wontedly exposed to his/her fears which give him/her obsessive thought. After that he/she is trained to avoid these thoughts and the rituals which he/she carries out to tackle the anxiety.

An adolescent having OCD can also have depression, substance abuse, attention deficit hyperactivity disorder, eating disorders, and other types of anxiety disorders. When a person with OCD and other mental illness, is treated, OCD becomes more difficult to treat and even diagnose.

Heat stroke is the severest condition of all heat related illnesses. In this condition the body gets overwhelmed with excessive heat and the efficiency of the system that regulates body heat goes down considerably which can result in a serious emergency requiring immediate medical care. The symptoms of heat stroke include dry and warm skin, very high fever generally above 104 degree Fahrenheit, increased heart rate, appetite loss, nausea, headache, vomiting, fatigue, agitation, confusion, stupor, seizures, coma and possible death. A teenager experiencing symptoms of heat stroke should stay in a cool place and have adequate rest. Heat stroke is a serious condition and emergency attention should be sought by calling 911. In the meanwhile the affected teenager should be made free of excessive clothing and should be worn with cool clothes and also put cool water on the skin to lower the temperature. Placing ice bags in armpits also helps. Make the teenager drink cool drinks if the teenager is alert.

Heat strokes are very much preventable if certain precautions are taken like drinking adequate water during hot days, avoiding alcoholic and caffeine drinks, wearing light clothes, exercising in cooler time of the day, wearing sunglasses and hat, using umbrella on a hot day, applying sun cream with a spf of at least 15 etc.

After creating the outline of the picture, pick lines that will actually attract the customer. The message shouldn’t be long enough to bore the customer. Some advertisers are under the illusion that more the matter written, the better the message delivered. Usually they fear that they don’t miss out any information. This does nothing but decreases the effectiveness of the ad and customer is left unsatisfied.

For example, the heading of the advertisement shouldn’t be just “We Sell Clothes”, which is too precise. The liking of the people should be studied and the headline should be designed such that the customer feels that his needs are met. It should also take into consideration seasonal changes like If the season at that time is summer and there are lots of beaches around that area, the heading of the ad should be something like “Summer Clothes for Sale” or “Get the heat off – Buy Swimwear”. The body of the advertisement should talk of the necessities to switch to summer clothes like cotton clothing. It should discuss the health point of view too, like cotton cannot be used as swimwear as it will cause contamination, therefore the swimwear is made of synthetic material. Also include lines about swimwear for overweight people.
Ads are either traffic builder or relationship builders or reputation builder. Suppose the budget involved is less, the target should be relationship builder. Because once the customers are established, they will start trusting the company and won’t switch to other companies. According to a research it takes ten percent less resources to retain existing customers than attracting new customer. If the focus is on brand recognition, the advertisement should be traffic building.

Get your creative juices flowing if you want to be an Ad Maker
Those who don’t have creativity as an in-built talent, it takes some hard work to learn the art of advertising. There are some really basic tricks involved.
First, try to put things that you have, to use i.e. the five senses along with the brain. Eyes can capture the most beautiful scenes; try remembering those that are creative. Try to observe the Mother Nature like observing the sunset, the patterns of colors like yellow, orange, red and violet. Observe greenery around, the flora and fauna. Next put your ears and mouth to use and try increasing the observation power. This can be done by walking around the neighborhood or nearby park and trying to observer new things everyday at the same location. Just seeing a thing isn’t enough, analyze the expressions of the people around you and analyze the emotions they depict. The brain can be fed with many things at once, so carry a camera along and take a lot of pictures of objects from different angles and lighting. Try to understand and capture the mood and things, which will help in creating a perfect scene. Like vanilla ice-cream will becomes more attractive when cherry and mint leave are added as topping. Play around with the lightning effects.

Bigger is better is believed in by many. That’s exactly what some of the small firms think when they want to advertise their product. They think bigger and select a medium where they need to invest a lot of money, but do not reach the targeted market. Like if a company specializes in designing diet plans and want to help out people who had disappointing results from their individual diet plans, and the company chooses to advertise a full page in the local paper instead of running advertisement in a health magazine, obviously not many of the dieters will notice the advertisement and the advertisement doesn’t get the desired attention.

So the point is to come up with the best campaign, which will increase the probability of the ad getting viewed and the right customers trying to buy the product or sign up for the service. Studies and research can be carried out on the market and targeted audience can be narrowed down. Once getting the list of newspapers, magazines and magazines meant for the customers in mind, find out how many readers they have and the cost they ask for posting the ad. Special deals are offered by them from time to time and can only be found by watchful eye.
It is estimated that everyday people are subjected to around three thousand commercials. That is a huge number and if someone desires to be noticed, he should certainly be different. Not only the services and product sold should be unique in the market, so should be the advertisement. For example, if a business selling mattresses says, “We sell mattresses”, it will not make a statement and will be passed off as
any other mattress advertisement. But if they say, “Our mattresses are of the finest quality”, it will make the advertisement stand out in the crowd. Other catch lines are “Are you suffering from back pain? Probably you must try our mattresses”, are more specific and will catch the fancy of the people who are suffering from back pains since a long time. The advertisement should also focus on the uniqueness of the product and how it is better compared to the competitors’ product.

A good after school activity will provide lots of opportunities for the young to increase their level of understanding of complex concepts. This is true of recreational activities too. Learning to pitch a ball, or dance to a tune - regardless of the activity involved, the child should be encouraged to grapple with and conquer new concepts. This not only keeps boredom at bay by challenging the child, but also builds up his self-confidence. Development of academic, personal and social skills is one of the prime aims of an after school activity. As the skills develop, the child’s self-esteem also increases.

After school activities are all about boosting a child’s sense of competence. Good and effective after school activities promotes the resilience of youth and encourages them to grow stronger, be it mentally, emotionally or physically.

Safety is one of the first requirements of an after school activity. The staff should be qualified, adequate and alert. Never put your child in a program where safety is a matter of accident instead of a matter of priority. The staff should be friendly and should have a positive relationship with the child. Therefore, the program should have professional and trained staff that loves to interact with children. The program should maintain a cooperative and supportive attitude and a structured environment. Participation and collaboration as opposed to competition and antagonism must be encouraged.

Opportunity The Making Of Europe Conquest Colonization And Cultural Change 950 1350 Robert C Bartlett: Children in Russia for adoption range in age from six months to six years and up. Almost all the children in Russia up for adoption are behind in growth and development due to being institutionalized. Once these children are in a family environment they bounce back. There are a variety of ethnicities such as Asian, Gypsy, Mediterranean, and Caucasian. Children of both sexes are available, but there are more boys than girls. Russian children will remain on the adoption list for six months before being considered for international adoption. This way they have a chance to be adopted by a Russian family. Many of the children in Russian orphanages come from teenage pregnancies, although a few are truly orphans. A handful of them are there because the families couldn’t afford to care for them.

The Russian adoption program has remained stable, and is second to the top country that Americans choose to adopt from. Americans adopted around 4,639 Russian children in 2005. The Russian Government began a review in 2005 of international adoption procedures, and changes are expected. Fees range from agency to agency but are usually somewhere around $19,900 to $25,500. This does not include travel, immigration filing, visa, document preparation or collection.

In order to start a Russian adoption you should choose an agency that deals with Russian adoptions or international adoptions. You should research the different agencies and request information packets from the ones that you might be interested in. In Russia only married couples or single women can adopt. They believe the woman to be the main caregiver. Once you have chosen an agency, you can begin your journey for a Russian adoption. The entire Russian adopting process usually takes about nine months. You start by doing a home study. The home study is...
basically a report on what the social worker has found out about the adoptive parents. Once you have finished the home study you will have to complete the Dossier. This is paper work that the Russian Government requires.

Furthermore, acupuncture certification today is mostly a sham, used to make money on desperate patients who have not benefited from western medical treatments. The National Council Against Health Fraud has even declared acupuncture as an unproven means of treatment whose concepts of healing are primitive and false.

One thing that Western science can agree upon is that there are no proven harmful effects of acupuncture. Many doctors agree that as long as a medication is not detrimental to ones health, then there is no reason why it should not be used if there are noticeable benefits. Most scientists would also state that it is simply due to a lack of research that the therapeutic properties of acupuncture have not yet been proven.

So, your child is beginning to get restless and make you restless. He has got more time than is good for him, and you are now considering after school programs - anything that will keep him busy for a few life-saving hours! Most after school activities can be broadly classified into three - recreational, educational and society-oriented. The last bit usually comes in when your child is already a bit grown up and can voice his own interests.

Educational activities aim at furthering the knowledge of your child. His general awareness, his understanding and his memory are targeted and he is given various techniques that will help him improve one or all of these. Programs such as intensive memory training and speed mathematics are educational after school activities. There are academic programs that will go over your childs homework and class work and help the child gain more in-depth knowledge in the various subjects. Thus academic programs have a definite edge over the fun and games, especially if parents feel that their child has a lot of catching up to do.
Recreational activities include sports and games, fine arts, painting etc. The main thrust here is to have fun. Of course, classes become more competitive as the child climbs up the ladder. Many sport events, competitions, stage performances etc are held to encourage the child.
