Like if the advertiser desires to post a billboard advertisement on a highway, he can choose the advertisement on a motel, cafeteria, or gas station. Depending on the locality specific potential customers should be targeted.

The cost is really reasonable. It varies from \$1,000 to \$3,000 per month. Ten advertisements will cost around \$ 30,000. It might look like a big amount, but it costs almost same if placing a full-page ad in a newspaper for only a day. And if the effectiveness is considered for both the methods, newspaper advertisements are not even half as effective as billboard advertisements. When an advertisement is placed in a newspaper or in a magazine, the customer should reach out to see the advertisement, but when an advertisement is placed on a billboard, it is like reaching to the customers.

Thus, Billboard advertising has high-impact on people and is a cost-effective method of advertisement. The above-mentioned advantages are few of the many advantages of billboard advertising. And that's the reason why all types of companies and businesses are choosing to go with billboard advertising. From placing the billboard at a theater multiplex, highway, airport, and even pasting them on cars, any kind of product can be advertised to any kind of audience. And the effectiveness of it can never be underestimated.
