2015-12-02 Wai Wai Myaing This family story begins in the colonial days of Myanmar (then called Burma), and its an important historical account that sheds light on the countrys people, history, and place in the world. Continuing the account she began in A Journey in Time, Wai Wai Myaing picks up with her familys return to Myanmars capital city of Yangon after allied forces reoccupied the country in the aftermath of World War II. They discovered their family home had been torched to the ground, but they bravely put themselves to the task of rebuilding their lives and celebrated as the country regained its independence January 4, 1948. The familys fortunes, however, were subject to the winds of political change, which bent and shaped their lives. Independence brought with it factions that fought for power and not all of them had the peoples best interests at heart. Filled with pictures and history that must not be forgotten, this memoir is one story of one family, which like so many others in Myanmar places great value on education, traditions, and sustaining a peaceful life with integrity, generosity, and a strong faith in the teachings of the Buddha.

Mandalay and the Art of Building Cities in Burma

2020-12 François Tainturier Drawing on original Burmese texts and illustrations, recent scholarship, and mapping, *Mandalay and the Art of Building Cities in Burma* argues that the founding of Mandalay shifted critically in emphasis and scale during its planning from a protocol that established the royal city as a "cosmic city" to one that viewed the royal capital as a sanctuary. As part of that shift, François Tainturier shows, the founding protocol

used Buddhist narratives as models for action and drastically altered patterns of spatial order that had been prevalent at former royal capitals. The systematic planning of Mandalay and the construction of its potent landscape constituted the expression--formulated not in words but in tangible form--of the throne's claim that Burma was a "Buddhist land," at a time when Lower Burma had been annexed by non-Buddhist believers. Tainturier provides further insight into how rulers articulated their lineage, power, and the promotion of Buddhism by creating potent landscapes. Mandalay and the Art of Building Cities in Burma renews scholarly discussion on Southeast Asian urban traditions and offers a critical investigation into the "cosmic" dimensions of one of the region's centers of power.

History of Burma

1998 Arthur P. Phayre First published in 1883, this is a comprehensive history of Burma, drawing on both Burmese written records and the narratives of European travellers and residents prior to the end of the 19th century. This classic history, first published in 1883, is the first English-language work to provide a comprehensive history of Burma, now Myanmar, based on Burmese sources. It incorporates the early history not only of Burma proper, but also those of the surrounding kingdoms of Pegu, Taungu, Tenasserim, and Arakan, comparing when possible differing accounts of events as described

Once was Burma

2013 Kim Buddee An historic transformation is happening in Myanmar, once was Burma. The country is emerging from its isolation and finally joining the 21st Century in what has been described as "the Burmese spring." This revolution is being felt most particularly in the former capital Yangon, once was Rangoon. There is at last the prospect of an end to decades of neglect and decay. However this brave new world spells uncertainty for the future of not only the unique collection of colonial heritage buildings that have miraculously survived, but also for other aspects of a city where the national costume is worn by most of the population, the women and children have a creamy paste called "thanaka" smeared on their faces and the world's oldest buses converted from World War Two army trucks are still in service. These new images capture that moment in time.....before everything changes. Words and photographs by Kim Buddee, once was an architect.

State and Society in Modern Rangoon

2014-06-17 Donald M. Seekins While most of Asia's major cities are increasingly homogenized by rapid economic growth and cultural globalization,

Rangoon, which is Burma's former capital and largest city, still bears the imprint of a unique and often turbulent history. It is the site of the Shwedagon Pagoda, a focus of Buddhist pilgrimage and devotion since the early second millennium C.E. that continues to play a major role in national life. In 1852, the British occupied Rangoon and made it their colonial capital, building a modern port and administrative center based on western designs. It became the capital of independent Burma in 1948, but in 2005 the State Peace and Development Council military junta established a new, heavily fortified capital at Naypyidaw, 320 kilometers north of the old capital. A major motive for the capital relocation was the regime's desire to put distance between itself and Rangoon's historically restive population. Reacting to the huge anti-government demonstrations of "Democracy Summer" in 1988, the new military regime used massive violence to pacify the city and sought to transform it in line with its supreme goal of state security. However, the "Saffron Revolution" of September 2007 showed that Rangoon's traditions of resistance reaching back to the colonial era are still very much alive.

The Burmese Empire a Hundred Years Ago

1893 Father Sangermano Vincenzo Sangermano (1758-1819) was a Roman Catholic priest, a member of the Barnabite religious order, who served as a missionary in Burma from 1783 to 1806. After initially going to the then-capital city of Ava, he settled in Rangoon, where he completed construction of a church and a college of missionaries. While heading the college, Sangermano undertook pioneering research on the political, legal, and administrative system of the Burmese Empire and on Burmese cosmography, science, religion, and manners and customs. Sangermano based his work on personal observations and inquiries, as well as on rare Burmese and Pali manuscripts that he analyzed and translated. In 1808, Sangermano returned to his native Italy, where he began preparing his research for publication, but he died in 1819 before he could complete his work. His manuscript remained in the hands of the Barnabite order and was published, with the support of the Oriental Translation Fund of Great Britain and Ireland, in 1833. Presented here is the second edition of Sangermano's book, published in London in 1893, which includes a detailed introduction by John Jardine, a British legal scholar and judge who served in a variety of posts in the British Empire, including that of Judicial Commissioner of British Burma. Sangermano's work remains a vital source for the study of pre-modern Burma.

The Hidden History of Burma: Race, Capitalism, and the Crisis of Democracy in the 21st Century

2019-11-12 Thant Myint-U How did one of the world's "buzzy hotspots" (Fodor's 2013) become one of the top ten places to avoid (Fodor's 2018)? Precariously positioned between China and India, Burma's population has suffered dictatorship, natural disaster, and the dark legacies of colonial rule. But when decades of military dictatorship finally ended and internationally beloved Nobel laureate Aung San Suu Kyi emerged from long years of house arrest, hopes soared. World leaders such as Barack Obama ushered in waves of international support. Progress seemed inevitable. As historian, former diplomat, and presidential advisor, Thant Myint-U saw the cracks forming. In this insider's diagnosis of a country at a breaking point, he dissects how a singularly predatory economic system, fast-rising inequality, disintegrating state institutions, the impact of new social media, the rise of China next door, climate change, and deep-seated feelings around race, religion, and national identity all came together to challenge the incipient democracy. Interracial violence soared and a horrific exodus of hundreds of thousands of Rohingya refugees fixed international attention. Myint-U explains how and why this happened, and details an unsettling prognosis for the future. Burma is today a fragile stage for nearly all the world's problems. Are democracy and an economy that genuinely serves all its people possible in Burma? In clear and urgent prose, Myint-U explores this question—a concern not just for the Burmese but for the rest of the world—warning of the possible collapse of this nation of 55 million while

suggesting a fresh agenda for change.

The No-Nonsense Guide to World Population

2011-08-16 Vanessa Baird No-Nonsense Guide to World Population (1/2 page) With world population passing seven billion and predicted to hit nine billion by 2050, we are in the grip of a number panic. This book explodes some of the common myths, looks at what the numbers really mean, and addresses nine topics, such as why women in most parts of the world have fewer children, what will happen to our societies as we all live longer, and how having babies relates to climate change. Vanessa Baird is co-editor at New Internationalist magazine. Her previous books include The No-Nonsense Guide to Sexual Diversity and, as compiler and editor, Eye to Eye Women.

The Burmese chronicles begin with the supposed foundation of Tagaung in 850 B.C., but the stories they tell are copies of Indian legends taken from Sanskrit or Pali originals. The earliest extant description of Further India is in the Geography of the Alexandrian scholar, Ptolemy, who flourished in the middle of the second century A.D. He refers to the inhabitants of the Irrawaddy Delta as cannibals. These were not, however, the Burmese, for their migrations into the country had not started. In Ptolemys time the dominant race in IndoChina was Indonesian. It must have been strongly represented in Burma, since her modern inhabitants show clear traces of the mixture. Buddhist legends point to Indian influence coming by sea. There is the story of the two brothers, Tapusa and Palikat, who visited Gautama and received from him eight hairs of his head, which they are said to have brought to Burma and enshrined beneath the Shwe Dagon Pagoda. The Mon chronicles contain the story of Sona and Uttara, said to have been deputed to the golden land, Suvarna Bhumi, by the Third Buddhist Council at Pataliputra c. 241 B.C. Was Burma the golden land of the jatakas, or birth stories of the Buddha? Actually, the fragments of the Pali scriptures found on the site of the Pyu capital of Sri Ksetra constitute the earliest evidence of Indian culture in Burma. And they do not date earlier than 500 A.D. Chinese writers of the third century A.D., however, refer to a Buddhist kingdom of Linyang, which Gordon Luce, the authority for this period, places in central Burma. Later Chinese writings, from the fourth century onwards, mention a people in central Burma, the Piao, among whom prince and minister, father and son, elder and younger each have their order of precedence. By Chinese standards a civilized people, it would seem. These were the Pyu, the ruins of whose capital at Old Prome, Sri Ksetra or Field of Glory, with its massive circular city walls and traces of broad moats, can still be seen. The Pyu were the earliest inhabitants of Burma of whom records are extant.

Miss Burma

2017-05-02 Charmaine Craig “Craig wields powerful and vivid prose to illuminate a country and a family trapped not only by war and revolution, but also by desire and loss.” —Viet Thanh Nguyen, Pulitzer Prize-winning author *Miss Burma* tells the story of modern-day Burma through the eyes of Benny and Khin, husband and wife, and their daughter Louisa. After attending school in Calcutta, Benny settles in Rangoon, then part of the British Empire, and falls in love with Khin, a woman who is part of a long-persecuted ethnic minority group, the Karen. World War II comes to Southeast Asia, and Benny and Khin must go into hiding in the eastern part of the country during the Japanese occupation, beginning a journey that will lead them to change the country’s history. Years later, Benny and Khin’s eldest child, Louisa, has a danger-filled, tempestuous childhood and reaches prominence as Burma’s first beauty queen soon before the country falls to dictatorship. As Louisa navigates her newfound fame, she is forced to reckon with her family’s past, the West’s ongoing covert dealings in her country, and her own loyalty to the cause of the Karen people. Based on the story of the author’s mother and grandparents, *Miss Burma* is a captivating portrait of how modern Burma came to be and of the ordinary people swept up in the struggle for self-determination and freedom. “At once beautiful and heartbreaking . . . An incredible family saga.” —Refinery29 “*Miss Burma* charts both a political history and a deeply personal one—and of those incendiary moments when private and public motivations overlap.” —Los Angeles Times

Futureface

2019-01-08 Alex Wagner From the host of MSNBC’s *Alex Wagner Tonight*, “a rich and revealing memoir” (*The New York Times*) about her travels around the globe to solve the mystery of her ancestry, confronting the question at the heart of the American experience of immigration, race, and identity: Who are my people? “A thoughtful, beautiful meditation on what makes us who we are . . . and the values and ideals that bind us together as Americans.”—Barack Obama The daughter of a Burmese mother and a white American father, Alex Wagner grew up thinking of herself as a “futureface”—an avatar of a mixed-race future when all races would merge into a brown singularity. But when one family mystery leads to another, Wagner’s post-racial ideals fray as she becomes obsessed with the specifics of her own family’s racial and ethnic history. Drawn into the wild world of ancestry, she embarks upon a quest around the world—and into her own DNA—to answer the ultimate questions of who she really is and where she belongs. The journey takes her from Burma to Luxembourg, from ruined colonial capitals with records written on banana leaves to Mormon databases, genetic labs, and the rest of the twenty-first-century genealogy complex. But soon she begins to grapple with a deeper question: Does it matter? Is our enduring obsession with blood and land, race and identity, worth all the trouble it’s caused us? Wagner weaves together fascinating history, genetic science, and sociology but is really after deeper stuff than her own ancestry: in a time of conflict over who we are as a country, she tries to find the story where we all belong. Praise for *Futureface* “Smart, searching . . . Meditating on our ancestors, as Wagner’s own story shows, can suggest better ways of being ourselves.”—Maud Newton, *The New York Times* Book Review “Sincere and instructive . . . This timely reflection on American identity, with a bonus exposé of DNA ancestry testing, deserves a wide audience.”—*Library Journal* “The narrative is part Mary Roach-style participation-heavy research, part family history, and part exploration of existential loneliness. . . . The journey is worth taking.”—*Kirkus Reviews* “[A] ruminative exploration of ethnicity and identity . . . Wagner’s odyssey is an effective riposte to anti-immigrant politics.”—*Publishers Weekly*

Almost Englishmen

2007 Ruth Fredman Cernea Before the Second World War, two golden 'promised lands' beckoned the thousands of Baghdadi Jews who lived in Southeast Asia: the British Empire, on which 'the sun never set, ' and the promised land of their religious tradition, Jerusalem. *Almost Englishmen* studies the less well-known of these destinations. The book combines history and cultural studies to look into a significant yet relatively unknown period, analyzing to full effect the way Anglo culture transformed the immigrant Bagdhadi Jews. England's influence was pervasive and persuasive: like other minorities in the complex society that was British India, the Baghdadis gradually refashioned their ideology and aspirations on the British model. The Jewish experience in the lush land of Burma, with its lifestyles, its educational system, and its internal tensions, is emblematic of the experience of the extended Baghdadi community, whether in Bombay, Calcutta, Shanghai, Singapore, or other ports and towns throughout Southeast Asia. It also suggests the experience of the Anglo-Indian and similar 'European' populations that shared their streets as well as the classrooms of the missionary societies' schools. This contented life amidst golden pagodas ended abruptly with the Japanese invasion of Burma and a horrific trek to safety in India and could not be restored after the war. Employing first-person testimonies and recovered documents, this study illuminates this little known period in imperial and Jewish histories.

Myth and History in the Historiography of Early Burma

1998 Michael Aung-Thwin After a Careful re-reading of primary sources written in Old Burmese, author Michael A. Aung-Thwin set about tracing the history of five key events that took place during the Kingdom of Pagan in order to disentangle that history from myth. He found that four of the five events, which have been considered the most important in the history of early Burma, are actually inventions of late-nineteenth- and twentieth-century colonial historians caught in their own intellectual and political world. A fifth is a genuine indigenous Burmese myth, but it too has been embellished by modern historians. Aung-Thwin concludes that these five key events, which have been taught as Burmese history for the past hundred years, actually have no basis in history.

Buddhist Art of Myanmar

2015-01-01 Sylvia Fraser-Lu A stunning showcase of exceptional and rare works of Buddhist art, presented to the international community for the first time The practice of Buddhism in Myanmar (Burma) has resulted in the production of dazzling objects since the 5th century. This landmark publication presents the first overview of these magnificent works of art from major museums in Myanmar and collections in the United States, including sculptures, paintings, textiles, and religious implements created for temples and monasteries, or for personal devotion. Many of these pieces have never before been seen outside of Myanmar. Accompanied by brilliant color photography, essays by Sylvia Fraser-Lu, Donald M. Stadtner, and scholars from around the world synthesize the history of Myanmar from the ancient through colonial periods and discuss the critical links between religion, geography, governance, historiography, and artistic production. The authors examine the multiplicity of styles and techniques throughout the country, the ways Buddhist narratives have been conveyed through works of art, and the context in which the diverse objects were used. Certain to be the essential resource on the subject, *Buddhist Art of Myanmar* illuminates two millennia of rarely seen masterpieces.

Myanmar's Buddhist-Muslim Crisis

2019-09-30 John Clifford Holt Myanmar's Buddhist-Muslim Crisis is a probing search into the reasons and rationalizations behind the violence occurring in Myanmar, especially the oppressive military campaigns waged against Rohingya Muslims by the army in 2016 and 2017. Over more than three years John Holt traveled around Myanmar engaging in sustained conversations with prominent and articulate participants and observers. What emerges from his peregrinations is a series of compelling portraits revealing both deep insights and entrenched misunderstandings. To understand the conflict, Holt must first accurately capture the viewpoints of his different conversation partners, who include Buddhists and Muslims, men and women, monks and laypeople, activists and scholars. Conversations range widely over issues such as the rise of Buddhist nationalism; the sometimes enigmatic and unexpected positions taken by Aung San Suu Kyii; use of the controversial term "Rohingya"; the impact of state-sponsored propaganda on the Burmese public; resistance to narratives emanating from international media, the United Nations, and the international diplomatic community; the frustrations of local political leaders who have felt left out of the policy-making process in the Rakhine State; and the constructive hopes and efforts still being made by forward-looking activists in Yangon. Three main perspectives emerge from the voices he listens to, those of Arakanese Buddhists who are native to Rakhine (once called Arakan), where much of the conflict has taken place; Burmese Buddhists (or Bamars), who make up the vast majority of Myanmar's population; and the Rohingya Muslims, whose tragic story has been widely disseminated by the international media. What surfaces in conversation after conversation among all three groups is a narrative of siege: all see themselves as the aggrieved party, and all recount a history of being under siege. John Holt gives voice to these different perspectives as an engaged and concerned participant, offering both a critical and empathetic account of Myanmar's tragic predicament. Readers follow the hopes and dismay of this seasoned scholar of Theravada Buddhism as he seeks his own understanding of the variously impassioned forces in play in this still unfolding drama.

A History of Modern Burma

2009-01-22 Michael W. Charney Burma has lived under military rule for nearly half a century. The results of its 1990 elections were never recognized by the ruling junta and Aung San Suu Kyi, leader of Burma's pro-democracy movement, was denied her victory. She has been under house-arrest ever since. Now an economic satellite and political dependent of the People's Republic of China, Burma is at a crossroads. Will it become another North Korea, will it succumb to China's political embrace or will the people prevail? Michael Charney's book- the first general history of modern Burma in over five decades - traces the highs and lows of Burma's history from its colonial past to the devastation of Cyclone Nargis in 2008. By exploring key themes such as the political division between lowland and highland Burma and monastic opposition to state control, the author explains the forces that have made the country what it is today.

Burma Or Myanmar?

2010 Lowell Dittmer Burma is one of the largest and most richly endowed states in Southeast Asia. Yet it remains both economically and politically underdeveloped. Why is this so? This book argues that much of the reason has to do with an ongoing struggle for national identity. It is suitable for students and professionals interested in development studies.

Than Shwe

2010-05-01 Benedict Rogers Than Shwe is one of the world's most notorious dictators, presiding over a military regime that persists in repressing and brutalizing its own people. Until now, his story has not been told. *Than Shwe: Unmasking Burma's Tyrant* provides the first-ever account of Than Shwe's journey from postal clerk to dictator, analyzing his rise through the ranks of the army, his training in psychological warfare, his belief in astrology, his elimination of rivals, and his ruthless suppression of dissent. Drawing on the insights of Burma Army defectors, international diplomats, and others, Benedict Rogers provides a compelling account of the reclusive and xenophobic character of Than Shwe, and life in Burma under his rule. What others are saying This book explains General Than Shwe's extraordinary rise to power—and why it is futile to expect that any kind of “engagement” with his regime will lead to meaningful change and even a modest democratization of this troubled Southeast Asian country. Than Shwe is a tyrant, and tyrants don't negotiate their own demise. Anyone who still believes that is possible should read this book.—Bertil Lintner, author of *Burma in Revolt*. In this path-breaking book, Benedict Rogers shines a light into some of the darkest corners of Burma's military dystopia, and in so doing exposes the cunning rise of a man who wraps himself in the trappings of Burma's ancient kings. Meticulously researched, powerfully written, and provocatively argued, this book deserves a place on the bookshelf of all of those interested in Burma, in Southeast Asia, and in the eternal struggle against tyranny and injustice.—Sean Turnell, author of *Fiery Dragons: Banks, Moneylenders and Microfinance in Burma* Highlights - A timely and penetrating inside look at the life of Burma's reclusive leader - Powerful exposé of the international crimes committed by the Than Shwe regime - Vivid account of Than Shwe's rise through the ranks of the military, the corruption of his family, the widespread rights violations inflicted on his people, and the lives of his rivals, cronies, and potential successors

Architecture in Burma

2023-12-16 Lorie Karnath The architecture in Burma represents a mixture of the country's history, politics, natural assets, religion, and superstition. Despite some recent advances toward modernization, in architectural terms, centuries of relative seclusion have caused this country to remain something of a historical timeline. Burma's resplendent temples, stately colonial edifices, and myriad of structures that comprise innumerable fishing and country villages provide an architectural window into the country's diverse and oftentimes tumultuous history. The turbulence of the region, punctuated by dynastic squabbles, is perhaps best chronicled and understood by way of its architecture. The escalation of successional quarrels frequently resulted in new rulers packing up entire palaces and other structures and hauling these by elephant to establish a new seat of government or capital elsewhere. The vestiges of the old cities were for the most part simply left to the vicissitudes of nature.

The Mists of Rāmañña

2017-04-01 Michael A. Aung-Thwin Scholars have long accepted the belief that a Theravada Buddhist Mon kingdom, Rāmaññadesa, flourished in coastal Lower Burma until it was conquered in 1057 by King Aniruddha of Pagan—which then became, in essence, the new custodian and repository of Mon culture in the Upper Burmese interior. This scenario, which Aung-Thwin calls the "Mon Paradigm," has circumscribed much of the scholarship on early Burma and significantly shaped the history of Southeast Asia for more than a century. Now, in a masterful reassessment of Burmese history, Michael Aung-Thwin reexamines the original contemporary accounts and sources without finding any evidence of an early

Theravada Mon polity or a conquest by Aniruddha. The paradigm, he finds, cannot be sustained. How, when, and why did the Mon Paradigm emerge? Aung-Thwin meticulously traces the paradigm's creation to the merging of two temporally, causally, and contextually unrelated Mon and Burmese narratives, which were later synthesized in English by colonial officials and scholars. Thus there was no single originating source, only a late and mistaken conflation of sources. The conceptual, methodological, and empirical ramifications of these findings are significant. The prevalent view that state-formation began in the maritime regions of Southeast Asia with trade and commerce rather than in the interior with agriculture must now be reassessed. In addition, a more rigorous look at the actual scope and impact of a romanticized Mon culture in the region is required. Other issues important to the field of early Burma and Southeast Asian studies, including the process of "Indianization," the characterization of "classical" states, and the advent and spread of Theravada Buddhism, are also directly affected by Aung-Thwin's work. Finally, it provides a geo-political, cultural, and economic alternative to what has become an ethnic interpretation of Burma's history. Burma Superstar

2017-03-28 Desmond Tan From the beloved San Francisco restaurant, a mouthwatering collection of recipes, including Fiery Tofu, Garlic Noodles, the legendary Tea Leaf Salad, and many more. Never before have the vivid flavors of Burmese cooking been so achievable for home cooks. Known for its bustling tables, the sizzle of onions and garlic in the wok, and a wait time so legendary that customers start to line up before the doors even open—Burma Superstar is a Bay Area institution, offering diners a taste of the addictively savory and spiced food of Myanmar. With influences from neighboring India and China, as well as Thailand and Laos, Burmese food is a unique blend of flavors, and Burma Superstar includes such stand-out dishes as the iconic Tea Leaf Salad, Chili Lamb, Pork and Pumpkin Stew, Platha (a buttery layered flatbread), Spicy Eggplant, and Mohinga, a fish noodle soup that is arguably Myanmar's national dish. Each of these nearly 90 recipes has been streamlined for home cooks of all experience levels, and without the need for special equipment or long lists of hard-to-find ingredients. Stunningly photographed, and peppered with essays about the country and its food, this inside look at the world of Burma Superstar presents a seductive glimpse of this jewel of Southeast Asia.

Analysis Capital City Of Burma;But you have to remember that acupuncture is not permanent. It merely starts something that you have to finish on your own. Some smokers who go 2 or 3 times a week to the clinic will need to come back for follow up sessions in the future.

At the same time, you have to find ways to prevent yourself from picking up a cigarette. You can do this by staying away from people who smoke since you will be tempted to ask for a stick. You can create your own personal mantra which you repeat to yourself every time you have an urge.

Remember that this craving is only short term and will last only for a few minutes. You have worked so hard to leave this behind so stick to the path and stay smoke free.

Transformation Capital City Of Burma~The ground transportation of the patient must also be coordinated. The medical coordinator contacts the appropriate ground transportation crews and informs them of the patients circumstances and time of arrival.

All of this intense effort and coordination comes together quickly and efficiently to get the patient to the destination safely and hassle free. It only takes one phone call to get the air ambulance on the way. The rest is up to the air ambulance service.

Mayo MedAir Puts Safety First

The Mayo Clinic is well known for their top-notch medical standards and quality. People from all over the world enlist the services of the Mayo Clinic when medical situations arise that need specialized care. Like the Mayo Clinic, Mayo MedAir puts the patient and safety first. Any patient that requires air ambulance transport will be properly monitored, comfortable, and safe during the flight.

Concepts Capital City Of Burma

The best part about acupuncture is that there are no harmful side effects and no chance for an addiction to occur. The patient will have to come back for regular treatment and have to pay attention to one's diet and exercise regularly as needles can only do so much to control one's weight.

The number of treatments for someone who is overweight varies depending on how many pounds they want to lose, the speed at which they want to lose it and their commitment to sticking to the plan.

The average patient on the other hand who wants to lose 5 to 10 pounds will have to come for treatment every three days or twice a week then once this is attained, once every two weeks. It is up to the person until when the treatment will be done which shows that acupuncture can help you lose weight.

Challenge Capital City Of Burma-Off to an extreme adventure

When people speak of Belize, only two words will come to mind—romance and adventure. If you are planning to go to Belize for an adventure vacation, it is a must that you familiarize yourself with the place by knowing a dose of its rich history. You should also familiarize yourself with going around the place such as knowing various means of transportation such as buses, cars, motorcycles and bicycles. You should also have any idea what to expect from the place in terms of accommodations, foods, and activities that you can do.

For an ultimate adventure vacation, the following are just some of the romantic things and exciting activities and places that you can visit:

Investment Capital City Of Burma;Relay on your neighbors and friends when needed. Let your child know who can be contacted at times of emergency. Ask your child to check in by phone. Above all, always tell the child to be in a group. Visiting toilets all alone or going home via isolated streets must be avoided.

A home-based after school program

So, your sons school does not offer any extracurricular activities. You are worried of depriving your child of all that extra knowledge and fun. What should you do?

After school activities need not be taught in a school-like environment by professional teachers in a structured and timely manner. There is a lot YOU can do to support your childs academic, physical and social development. Do not be too concerned about formal programs, as many of our

children are already over-scheduled.

Story of" Capital City Of Burma,Obesity can be caused due to complex reasons including biological, genetic, cultural and behavioral factors. Usually a person gets obese when he/she consumes more calories than the body burns. Also there are fifty percent chances of becoming obese when both one of the parent is obese and when obesity has affected both the parents, the chances increases to eighty percent. One percent of obese people can have that fat because of health reasons, as obesity can be caused due to few medical disorders. The causes of obesity in adolescence are overeating, family history, bad eating habits, little or no exercise, medical illness, low self esteem, medications, depression, emotional problems, stressful life, and family problem.

Obesity can cause many major problems. Some of them are diabetes, sleeping disorders, high blood pressure, breathing problems, emotional problems and increase in heart disease risk. Teenagers are more prone to get emotional problems. Because of the weight, they develop low self esteem. They get into depression, obsessive compulsion disorder and anxiety.

Adolescents who want to tackle the obesity problem should approach a pediatrician who will thoroughly evaluate the cause. If no physical disorder is to be blamed, the weight is reduced by limiting the calorie intake and increasing physical activity. The doctor can advice a weight management program and change the eating habits of the teenager, slowly. The patient must avoid oily, fatty, fast and junk food. The portions must be reduced in order to decrease the calorie intake. If the adolescent has developed emotional problems because of obesity, an adolescent psychiatrist can collaborate with the pediatrician in order to make a comprehensive plan for treatment. The plan includes reasonable goals, behavior modification, family participation, and management of physical activity.

Challenge Capital City Of Burma

After all this exposure, women viewers identify themselves as the weaker sex. Some think that males decide their self-worth. Over exposure of women as sex objects have triggered cases of physical assault and rapes. Majority of the women are taking the wrong way to get those stick figures, which are results in diseases, sometimes leading to death. And most of this is attributed to the advertisements that pour into the lives of innocent people everyday. Marketing ethics should be built to raise the status of woman in the society and give them the due respect but not degrade them.

Writing a good headline for your advertisement

There is no denying the fact that the success of an advertisement lies mostly in the headline. The headline should attract the reader and make him read the rest of the advertisement. The headline should be simply catchy and various key points should be embedded when deciding on the

headline for the ad.

The headline should catch attention of the eye at the first glance. Words in headlines should act as tags for the advertisement. It should say it all about the content that follows. If a company is selling reasonably priced furniture, the headline of their advertisement should be 'Durable furniture for less price'. This headline will attract the right customers who are on a look out for durable furniture as well as low cost furniture. If the customers to be reached belong to a category that are interested in decorating their house with beautiful furniture and aren't concerned about the price to get the right look, then the headline can be 'Change how your house looks by our oriental furniture'. Anything other than the prospects should not be included in the headline. If both men and women can use a product, both of them should be referred to in the title, missing out even one of the category is like losing a huge number of potential customers.

History Capital City Of Burma-Acne in Adolescents

Acne is one of the most common problems in adolescent teens affecting nearly seventeen million people in the United States. Acne is nothing but a disorder involving sebaceous glands and hair follicles. Acne results from the clogging of sebaceous glands leading to the formation of pimples and cysts. The condition usually begins with the onset of puberty. Going by the facts, as teens attain puberty the androgens also called male sex hormones are produced in high number leading to sebaceous glands becoming over active which results in sebum being produced in high proportions.

Sebum, which is nothing but oil is produced by sebaceous glands which travel to the skin surface through hair follicles. But, skin cells block the follicles which results in oil also being blocked. When these hair follicles are blocked it results in the development of skin bacteria known as Propionibacterium Acnes within the follicles which in turn results in swelling of the skin called Acne. If the hair follicles are partially blocked it results in blackheads. If the follicles are completely blocked they result in whiteheads. But if these plugged follicles are not treated they ultimately burst causing the oil, bacteria and skin cells to spill all over the skin resulting in irritation and formation of pimples. Acne can be shallow as well as deep in various individuals depending on the nature of skin and amount of oil produced.

When it comes to footwear, it is advisable to bring just two pairs—one pair of closed shoes and a pair of flip flops. If you are going to a vacation cruise, always bring pieces of clothing for formal and casual occasion.

- An alarm. This is very important especially if you are heading for a destination that have time difference. It is also best to bring a travel alarm so you won't have to miss out on something just because you run late. (TIP: Bring a gadget that can double as an alarm clock such as cellular phones, PSPs, and other handheld devices.)
- Medication. Medication, especially if prescribed, should be given proper attention. If you are using prescription medicines, make sure that you bring enough amounts to ensure your well being during the trip. If you are travelling abroad, copy of the prescription is required to ensure that you are not bringing in illegal drugs. If you are not taking any prescription medicines, always bring a first aid kit.
- Toiletries. Shampoos, lotions, liquid soaps, and other toiletries are usually available at the hotel but if you prefer your own brand, make sure that you place them in small bottles and keep them into a minimum. (TIP: Always put toiletries in zip locks so they won't affect other items in case they leak due to air pressure.)

Positive augmentation of critical skills is the prime focus of these school-based after school activities. Thus they enhance the skill level of the child. Most school-based programs offer assistance in math tutoring, reading, comprehension and problem solving. Many programs provide engaging activities that seek to prepare the students for college. Hands-on experience is provided for children who want to invest in a career in teaching. Access to telecommunication and technology and involvement in music and art are other benefits of these programs. This becomes

invaluable, especially in low-income sectors where such activities are considered to be a luxury.

As far as children are concerned, the snacks provided in after school programs are an added incentive. School sponsored after school programs are entitled to receive funds for snacks. The National School Lunch Program is designed to do just this. Free or reduced price snacks will be provided for children from schools that apply for it. The CACFP reimburses expenditure depending upon the child's income status. But this is applicable only till the age of 13. The funding that schools get depends upon the area in which they are situated. A low-income area gets more funding. Supper can be served to children below the age of 19. Longer programs can provide both supper and a snack. With the participation of non-profit private organization, it is possible to feed deserving school children breakfast, supper and a snack.

Size can also be told by breed, or at least guessed at by what breeds make up your mix. Some dogs for adoption should only reach five pounds where others may grow well over two-hundred and five. So If you are looking for a large dog you should look into larger breeds such as, Great Danes, Rottwillers, Saint Bernards, Great Pyrenees, Labradors and so on. If your individual needs require a smaller companion than maybe a medium sized dog say around thirty to sixty pounds is what you are looking for in the dog that you adopt. In that case maybe you should look into breeds or mixes that include some of the following: Collie, Sheperd, Spits, Spaniel, Boxer, or chow just to name a few. Though sometimes they are considered more hyperactive your dog adoption needs require a small dog to adopt. In this case you may want to look at breeds such

as, Tea cup poodles, Daushound, Papillion, Bichon Frise, Pomeranian, and so many others in the miniature category.

The age of the dog that you are to adopt can also be of great importance to a person. With age comes some benefits, generally they are already house trained or are outside animals that have grown accustomed to life that way. An older animal will be less likely to steal your slippers as a chew toy, or eat the paper rather than bringing it to you. Puppies on the other hand can be a hand full, however you get to decide how they are trained and what things they can and can't do in your house from day one. Though they generally learn fast, they require much more time and attention than an older animal. Puppies have more energy and less control they need constant supervision, and lots of loving attention. The payoff for all your hard work is a very attached dog that will be loyal. There are pros and cons to any age dog that you chose to adopt, the choice is really about what fits your situation.

The process is quite simple and will require a small adoption fee. In some cases you will be required to submit an application so that you can be verified as a good pet owner. It is recommended that you visit with the dog on site, if you have children bring them with you so that you can see how the dog will interact with them. All in all adopting a dog is a rewarding adventure.
